

Confirmation of 2016/17 Emergency Preparedness, Resilience and Response (EPRR) Core Standards Assurance Process Results

Northamptonshire Local Health Resilience Partnership (LHRP) undertakes an annual EPRR assurance process to ensure that NHS-funded member organisations are compliant with the Emergency Preparedness, Resilience and Response (EPRR) Core Standards published on the NHS England website.

Northampton General Hospital submitted an assessment of **Substantial Compliance** against these standards prior to the assurance meeting. This statement, along with the associated action plan, was reviewed through the LHRP assurance process on 21st September 2016 and a number of core standards were reassessed as fully compliant.

Following the assurance meeting and review of the Trusts submission, NHS England Midlands & East confirmed agreement with the Trust's overall EPRR Core Standards assurance rating of: **SUBSTANTIAL**.
