

Request under Freedom of Information Act 2000

Request Ref: NGFOI 19/20: 058

Thank you for your request for information received at Northampton General Hospital NHS Trust (NGH) on 30/04/2019.

Unfortunately we are unable to provide you with the information requested as:

	<i>Number M/F</i>	<i>Age at diagnosis</i>	<i>ICD 10 code applied</i>	<i>Other co- morbidities and ICD codes</i>
<i>A primary diagnosis of Worster Drought over the last 3 years</i>	I can confirm on behalf of the Trust and in accordance with S.1 (1) of the Freedom of Information Act 2000 (FOIA) that we do not collate the information that you have requested. This is because we cannot distinguish the requested conditions apart from other types of Cerebral Palsy.		There is no specific diagnosis code for each of these conditions. The most likely code applied to inpatient admissions will have been G80.8 Other specified cerebral palsy. This code will cover a number of types of Cerebral Palsy.	The most likely code applied to inpatient admissions will have been G80.8 Other specified cerebral palsy.
<i>Worster Drought prevalence (all ages) under your care</i>				
<i>No of patients diagnosed with Congenital suprabulbar palsy/paresis</i>				
<i>No of patients diagnosed with Congenital pseudobulbar palsy/paresis</i>	I can confirm on behalf of the Trust		There is no specific code	There is no specific code

<p><i>No of patients diagnosed with bilateral perisylvian polymicrogyria</i></p>	<p>and in accordance with S.1 (1) of the Freedom of Information Act 2000 (FOIA) that we do not collate the information that you have requested. This is because we cannot distinguish the requested conditions apart from the individual codes added to each patient to denote all the manifestations of the disease specific to that patient.</p>	<p>for these conditions and a number of individual codes will have been added to each patient to denote all the manifestations of the disease specific to that patient.</p>	<p>for these conditions and a number of individual codes will have been added to each patient to denote all the manifestations of the disease specific to that patient.</p>
<p><i>No of patients diagnosed with foix-chavany-marie syndrome</i></p>	<p>I can confirm on behalf of the Trust and in accordance with S.1 (1) of the Freedom of Information Act 2000 (FOIA) that we do not collate the information that you have requested. This is because the requested condition is indistinguishable from all other patients with a diagnosis of motor neurone disease.</p>	<p>The code used for this condition would most likely be G12.2 Motor Neuron Disease</p>	<p>The code used for this condition would most likely be G12.2 Motor Neuron Disease</p>
<p><i>How many patients have had a diagnosis of WDS which has been re coded: to what disease/ICD10 code?</i></p>	<p>I can confirm on behalf of the Trust and in</p>	<p>There is no specific diagnosis</p>	<p>The most likely code applied to</p>

<p><i>How many patients have been re coded to WDS</i></p>	<p>accordance with S.1 (1) of the Freedom of Information Act 2000 (FOIA) that we do not collate the information that you have requested. This is because we cannot distinguish the requested conditions apart from other types of Cerebral Palsy.</p>	<p>code for each of these conditions. The most likely code applied to inpatient admissions will have been G80.8 Other specified cerebral palsy. This code will cover a number of types of Cerebral Palsy.</p>	<p>inpatient admissions will have been G80.8 Other specified cerebral palsy.</p>
<p><i>Any specific specialities/services/pathways/recommendations provided for WDS patients</i></p>	<p>There is no specific pathway for children with WDS. But they will follow the same as with all children with cerebral palsy. That is:</p> <ul style="list-style-type: none"> • Assessment by a consultant paediatrician locally • Arrange Imaging (MRI) either here or at Oxford, our tertiary centre for neurology • Management will be done jointly with Oxford • Local support services, physiotherapy, Occupational Therapy, Feeding clinic etc. arranged locally as in all other children with Cerebral Palsy
