

Request under Freedom of Information Act 2000

Request Ref: NGFOI 19/20: 068

Thank you for your request for information received at Northampton General Hospital NHS Trust (NGH) on **07/05/2019**.

How many patients under the two-week rule waited more than two weeks for their PET/CT scans at the PET centres at the Northampton General Hospital NHS Trust last year?

By the two-week rule I refer to the suspected cancer cases referred for imaging. So, how many cases (number of cases and percentage of cases referred) have waited two weeks or more from the date of referral for imaging?

How many PET-CT scans have been delayed and /or cancelled at this PET centre in the last year?

What is the reason given for these scans being delayed?

Unfortunately we are unable to provide you with the information requested as:

PET/CT scans are run for the Trust by an external company. The trust therefore does not hold the information you have requested.
