*** Due to the low numbers involved the exact figures have been withheld under the Freedom of Information Act, Exemption Section 40. This is to protect the identity of the individuals concerned and to preserve their rights under the Data Protection Act.**

Please note that our logic in working out the attendances and treated figures in A&E was as follows;

- **Attendances were all patients who attended A&E who had Carbon Monoxide mentioned in the triage comments.**
- **Treated in A&E were patients who were sent home after their attendance**
