

Request under Freedom of Information Act 2000

Request Ref: NGFOI 19/20: 222

Thank you for your request for information received at Northampton General Hospital NHS Trust (NGH) on 23/07/2019.

Unfortunately we are unable to provide you with the information requested as:

I would like to see the risk registers from all inpatient mental health facilities under your Trust. As I understand it, the risk register can refer to the risk assessment for the ward/facility. It can also refer to the staffing level requirements.

The information I am looking for is: the staffing levels, ie the number of staff required per shift and the number of staff who were actually present for the shift.

However, I would prefer to have the entire document(s), particularly if this is quicker for you.

If not already included in the risk registers, then please could you find for me the staff requirements (i.e. how many staff should be on duty and which type of staff) for each shift, and the number and type of staff who were actually present on each shift.

By 'type of staff' I mean the role of each staff member: eg support worker, mental health nurse, etc.

The dates for which I would like the information are:

June, December 1990;

June, December 1995;

June, December 1998;

January, June, December 2000;

January, June, December 2003;

January, June, December 2005;

January, June, December 2007;

January, June, September, December 2010;

January, June, September, December 2013;

All of 2014-2019

I can confirm on behalf of the Trust and in accordance with S.1 (1) of the Freedom of Information Act 2000 (FOIA) that we do not collate the information that you have requested. This information may be available from Northamptonshire Healthcare NHS Foundation trust, who provide mental health services for Northamptonshire. Their website is:
