Board of Directors (Part I) Agenda

Meeting	Board of Directors (Part I) Meeting in Public
Date & Time	Friday 9 June 2023, 09:00-10:45
Location	Boardroom, Northampton General Hospital

Purpose and Ambition

The Board is accountable to the public and stakeholders; to formulate the Trust's strategy; ensure accountability; and to shape the culture of the organisation. The Board delegates authority to Board Committees to discharge its duties effectively and these committees escalate items to the Board, where Board decision making and direction is required.

Item	Description	Lead	Time	Purpose	P/V/Pr
1	Welcome, Apologies and Declarations of Interest	Chair	09:00	-	Verbal
2	Patient Story: Ellie's story	Director of Nursing, Midwifery and AHPs	09:00	Discussion	Present-ation
3	Minutes of the Previous Meeting held on 5 April 2023 and Action Log	Chair	09:30	Approve Receive	Attached Attached
4	4 Chair's Report 4.1 Chief Executive's Report	Chair Chief Executive Officer	09:30	Information Information	Verbal Attached
Operations					
5	Board Committee Chairs Reports/ Integrated Governance Report (IGR)	Committee Chairs / Chief Executive and Executive Directors	09:40	Assurance	Attached
6	2023-24 ICS Operating Plan	Group Chief Finance Officer	10:15	Receive	Attached
Governance					
7	Group Board Assurance Framework	Director of Corporate Governance / Executive Leads	10:25	Assurance	Attached
8	Group Digital Hospital Committee Terms of Reference	Chief Digital Information Officer	10:35	Approve	Attached
9	Questions from the Public (Received in Advance)	Chair	10:40	Information	Verbal

10	Any Other Business and close	Chair	10:45	Information	Verbal
Resolution to Exclude the Public and the Press: The Board is asked to approve the resolution that: Representatives of the press and other members of the public be excluded from the remainder of the meeting having regard to the confidential nature of the business to be transacted.					
Date of Next Meeting: Thursday 27 July 2023, 9.30am					

P = Paper, P* = Paper to follow, V = Verbal, S = Slides (to be added to agenda pack)

Minutes of the meeting

Meeting	Board of Directors (Part I) Meeting in Public
Date & Time	Wednesday 05 April 2023, 09:30 – 12:35
Location	Boardroom, Northampton General Hospital

Purpose and Ambition

The Board is accountable to the public and stakeholders; to formulate the Trust's strategy; ensure accountability; and to shape the culture of the organisation. The Board delegates authority to Board Committees to discharge its duties effectively and these committees escalate items to the Board, where Board decision making and direction is required.

Attendance	Name and Title`	
Present	Rachel Parker	Chair (Interim)
	Heidi Smoult	Chief Executive (Interim)
	Jon Evans	Group Chief Finance Officer
	Stuart Finn	Interim Group Director of Operational Estates
	Jill Houghton	Non-Executive Director
	Paula Kirkpatrick	Group Chief People Officer
	Elena Lokteva	Non-Executive Director
	Hemant Nemade	Medical Director
	Nerea Odongo	Director of Nursing, Midwifery and Allied Health Professionals
	Debra Shanahan	Interim Director of Nursing, Midwifery and Allied Health Professionals
	Karen Spellman	Interim Group Director of Integration and Partnerships
	Becky Taylor	Group Director of Transformation and Quality Improvement
	Anette Whitehouse	Non-Executive Director
	Palmer Winstanley	Chief Operating Officer
In Attendance	Dr Pad Boovalingam	Consultant and Divisional Director, Medicine and Urgent Care (Item 2)
	Soneya Joby	Ward Sister (Item 2)

	Kelly Kidsley	Urgent and Emergency Care Matron (Item 2)
	Ilene Machiva	Deputy Director of Midwifery
	Richard May	Trust Board Secretary (KGH)
	Suzie O'Neill	Group Director of Communications and Engagement
	Dr Irfan Sabih	Chair, Local Negotiating Committee (LNC) (Item 2)

Apologies for Absence	Richard Apps	Director of Corporate Governance (KGH)
	Denise Kirkham	Non-Executive Director
	Matthew Metcalfe	Group Chief Medical Advisor
	Professor Andre Ng	Non-Executive Director

Agenda Item	Discussion	Action Owner
1	<p>Welcome, Apologies and Declarations of Interest</p> <p>The Board welcomed Rachel Parker to the position of Interim Chair following the retirement of Alan Burns on 31 March 2023.</p> <p>The Chair welcomed Board Members and guests to the meeting and noted apologies for absence as listed above. There were no declarations of interest relating to specific Agenda items.</p>	
2	<p>Patient and Staff Story: Impacts of industrial action</p> <p>The Board welcomed colleagues to shares their experiences and perspectives in respect of the Trust's response to the recent Junior Doctors' Strike.</p> <p>Dr Irfan Safih, LNC chair, described the political and economic context for the recent industrial action by Junior Doctors, and the LNC's role in negotiating with hospital management to prepare for the strike and minimise risks to patient safety. Engagement had been good, with the Trust being the first in the East Midlands Region to submit a contingency plan, whilst the hospital leadership's visits to picket lines was recognised.</p> <p>Dr Pad Boovalingam, Consultant and Chief of Division of Urgent and Emergency Care, advised that Consultants had covered Junior Doctors' roles and that 'hot spots' were identified at the planning stage, within the Emergency Department and Same Day Emergency Care, to maintain patient safety. Whilst challenging, the industrial action enabled teams to adopt new ways of working</p>	

	<p>and facilitate processes which drew on colleagues' strengths across the full breadth of clinical disciplines.</p> <p>Kelly Kidsley (Matron) and Soneya Joby (Ward Sister) described their teams' teamwork, commitment to continuing patient care, safety and communication during a period of heightened anxiety for many, and how they intended to embed positive aspects of the experience into business as usual and share learning across the organisation.</p> <p>The Board of Directors expressed its gratitude to all colleagues in clinical and non-clinical areas, for their professional and compassionate response to the recent industrial action, and was assured that early indications suggested there had been no discernible increase in the number or severity of reported incidents of potential harm. The Board considered that the 'hybrid' model of workforce development provided particularly valuable opportunities for learning, and committed to continuing to support measures to improve and sustain safe and timely discharge.</p>	
3	<p>Minutes of the Previous Meeting held on 03 February 2023 and Action Log</p> <p>The Board APPROVED the Minutes of the Meeting held on 0 February 2023 as a correct record.</p> <p>The Board noted the action log.</p> <p>In respect of Action March 22 (8), the Group Director of Communications and Engagement advised that she had begun to review key metrics for the Strategic Communications Framework since joining the Trust in February 2023, as part of work to develop an updated strategy. This would be presented to the Boards, with accompanying metrics, in Autumn 2023.</p> <p>In respect of Action Feb 23 (4), the Board noted that a final response to the Integrated Care Board's (ICB) proposal in respect of access to meetings and documents would be agreed and communicated following further discussions with between the Interim Trust Chairs and the ICB Chair.</p>	<p>SON</p> <p>RA/RP</p>
4	<p>Interim Chair's Report</p> <p>The Board of Directors noted Alan Burns's retirement on 31 March 2023 and joined the Interim Chair in thanking Alan for his contributions to the Trust, Group and wider NHS over a 49-year career. The Interim Chair would hold office for a 3-month period.</p> <p>The Board noted Simon Weldon's departure from the position of Group Chief Executive to take up a new role at the South East Coast Ambulance Service and joined the Interim Chair in thanking Simon for his contributions to the Trust and Group since joining</p>	

	<p>Kettering General Hospital in 2018 and Northampton General Hospital in 2020.</p> <p>The Board joined the Interim Chair in extending its congratulations and best wishes to Heidi Smoult following her appointment as Chief Executive and Accountable Officer on an interim basis; the Trust's Remuneration and Appointments Committee also agreed not to recruit to the roles Group or Hospital Chief Executive role at present, pending the results of ongoing review of trust and group leadership arrangements.</p>	
4.1	<p>Chief Executive's Report</p> <p>The Chief Executive presented her report and extended thanks to colleagues and teams within the hospital and wider Integrated Care System (ICS), for their work to maintain quality and safety in response to significant and ongoing operational and workforce challenges, particularly during the recent junior doctors' strike. The Board commended reductions in delayed discharges brought about by effective joint working with local authorities and other care providers which, along with more efficient internal processes, had contributed to reduced lengths of stay.</p> <p>The Trust had also experienced a localised fire on site on the first day of the strike, and the Chief Executive paid tribute to exceptional team working in response to this major incident.</p> <p>In addition, the Chief Executive advised of:</p> <ul style="list-style-type: none"> • Significant work, led by the Group Chief Finance Officer and Interim Group Director of Integration and Partnerships, to prepare the Trust's submission to the ICS Operating Plan for 2023/24 (latest draft submitted 30 March 2023); • The submission of the Trust's evidence for Pathway to Excellence reaccréditation; • Staff Excellence awards, held on 16 March 2023 to recognise and celebrate the achievements of teams, staff, volunteers and fund raisers across the University Hospitals of Northamptonshire (UHN) Group. <p>The Chief Executive thanked Alan Burns for his strategic leadership and commitment to the Trust and UHN Group, and welcomed Nerea Odongo, who joined the Trust as Director of Nursing, Midwifery and AHPs on 3 April 2023, to replace Debra Shanahan, who had played an important and valuable leadership role on an interim basis.</p> <p>The Board of Directors noted the Chief Executive's report.</p>	

Operations		
5	<p>Board Committee summaries and Integrated Governance Report (IGR)</p> <p>Committee Chairs and Executive Leads brought the following highlights and exceptions to the Board's attention:</p> <p><i>Group Strategic Development Committee</i></p> <ul style="list-style-type: none"> - The Committee approved, subject to minor amendments, revised and enhanced project governance and management arrangements for major infrastructure initiatives; - The Committee noted the latest position in respect of the developing business case to provide Community Diagnostic Centres, the successful delivery of which would be a crucial dependency for the delivery of activity and performance targets during 2023-24. <p><i>Group Digital Hospital Committee</i></p> <p>The Committee was undertaking a reset of its priorities, focus, membership and governance following the Group Chief Digital Information Officer taking up her post in February 2023; it was considered that NGH Non-Executive Director representation and oversight on the committee could be strengthened. In doing so, the Board urged the Committee to ensure the right balance between strategic ambition and operational business requirements, aligned to enable the delivery of quality priorities.</p> <p><i>Group Transformation Committee</i></p> <p>The Committee indicated Limited Assurance with respect to the emerging strategic priorities for 2023/24, which had been since been subject to further development: see item 8 below.</p> <p>The Committee indicated Limited Assurance regarding the deliverability of productivity and efficiency targets for 2023/24, though work to strengthen programme governance should enable closer oversight.</p> <p><i>Group Finance and Performance Committee</i></p> <ul style="list-style-type: none"> - The Trust was maintaining strong operational performance in delivery against national cancer standards compared to other regional providers, and had increased diagnostic capacity to restore performance to target levels. The number of patients waiting over 52 weeks for treatment had increased, though in the context of demand for referrals tripling. The Trust was on track to ensure that no patients were waiting over 65 weeks for treatment by March 2024; 	

	<ul style="list-style-type: none"> - Operational Plan for 2023/24 agreed for submission to NHS England (on 30 March) (assurance level: Reasonable); - The Committee commended the Trust's response to the recent fire (assurance level: substantial); - The Committee approved a business case for the procurement of a catering provider and digital meal ordering for the Group (assurance level: Substantial) which would improve supply chain resilience, reduce food waste and improve patient health; - The financial position at Month 11 (28 February 2023) showed a deficit of £13.7m, representing an adverse position of £11.9m, and a projection for a deficit outturn of £14.7m in line with the revised plan agreed with the ICB and NHS England. The year-to-date pay position showed an under-delivery against the efficiency target of £4.3m, with agency expenditure of £25.3m to cover vacancies during the year. This area would be a high priority for cost reduction during 2023/24. <p><i>Group People Committee</i></p> <p>The Committee:</p> <ul style="list-style-type: none"> - Indicated Reasonable assurance in respect of the Group's leadership and cultural initiatives in response to the Staff survey results: see item 9 below; - Reviewed people objectives as part of the draft 2023/24 strategic plan, with further work required to ensure the alignment of key metrics to plan delivery, with a particular focus on managing turnover effectively to reduce agency spend – see item 8 below; - Indicated Limited Assurance in respect of Safe Staffing data presentation and the appropriate use of the rostering system within Ward areas; - Noted, and expressed its gratitude for, the work to ensure sufficient staffing levels, and associated HR/OD support, in response to recent industrial action. <p>In response to a question, the Board was assured that managers and team leaders had been briefed to enable reasonable adjustments for colleagues observing fasting during Ramadan, including showing flexibility in respect of meal breaks, supported by the Chaplaincy service.</p> <p><i>Group Clinical Quality, Safety and Performance Committee</i></p> <p>The Committee:</p> <ul style="list-style-type: none"> - Indicated Reasonable assurance in respect of sub-group exception reporting, noting that further work was required to embed a consistent and comprehensive approach that 	
--	--	--

	<p>provided the Committee with the assurance levels it required;</p> <ul style="list-style-type: none"> - Raised concern regarding IGR metrics, several of which were subject to data gaps and could not be compared between trusts due to delays in agreeing and implementing common definitions and reporting arrangements; executive leads would be meeting shortly with the Health Intelligence Team to progress this; - Supported the continuation of 'in common' working as an opportunity to share learning across the Group: see item 11 below; - Indicated Limited Assurance in respect of draft strategic priorities for 2023-24 (considered at item 8 below following further development work) - Commended the first joint Urgent and Emergency Care report for the Group, indicating Reasonable Assurance; - Noted that digital issues were creating challenges for Maternity Services at both Trusts (Assurance: Reasonable), due to the expiry of the Medway contract in June 2023 without a firm decision on the preferred replacement option, and Wifi connectivity issues in community hubs. The Group Chief Digital Information Officer assured the Board that she was aware of, and her teams responding to, these issues; - Requested aligned patient safety reporting to future meetings (Assurance: Reasonable); - Indicated Limited assurance in respect of clinical collaboration updates due to a lack of accompanying metrics; and - Mitigations were in place in response to recent increases in C-Difficile and pressure ulcer cases. <p>The Board of Directors noted the Integrated Governance Report.</p>	
6.	<p>CQC Final Report: Inspection of Maternity Services Delivery</p> <p>The Board of Directors received the final CQC Report, received on 17 February 2023, following the inspection of the Maternity Service on 30 November 2022. The overall rating for the Safe and Well-Led domains remained 'Requires Improvement'. The report set out six 'Must Do' and four 'Should Do' actions identified by the CQC, and the Trust's actions, planned, underway and complete, in response.</p> <p>The Board of Directors indicated its acceptance of the report's findings and commended the Trust's response, and particularly the leadership of the Deputy Director of Midwifery since recently joining the Trust. The Board indicated its assurance in respect of the action plan, and noted learning for the wider organisation in respect of peer challenge between service areas and embedding a culture which encouraged questions and refused to accept substandard practice.</p>	

Strategy & Culture		
7.	<p>Trust Response to the Kirkup Report</p> <p>The Board of Directors received a report setting out the findings of a review of the Trust's current position against the main observations made by Dr Kirkup following a review of Maternity and Neonatal services in East Kent, including the results of a benchmarking exercise. The East Kent report set out four areas where change and improvement was needed, and a summary of the Trust's position and improvement work, which was set out in existing service improvement plans.</p> <p>The Board of Directors noted the latest position and indicated its assurance in respect of the Trust's response, noting particular improvement objectives in respect of engagement with women in communities and the expansion of neonatal services across the ICS.</p>	
8.	<p>Our Strategic Priorities for 2023-24</p> <p>The Board of Directors considered a report proposing changes to long term (4-year) goals to deliver Dedicated to Excellence strategic priorities, and associated deliverables and metrics, following consultation with Committees.</p> <p>Committee Co-Chairs and Lead Executives introduced the results of their work to review progress to date, and emerging work programmes and metrics for 2023/24, which would be subject to further development prior to resubmission to committees and Boards during the 2023-24 business cycle; it was considered that these plans should enable the right balance to be achieved between aspirational goals and tangible deliverables that would engage, and make positive differences, for staff and patients. The Board noted that committees would receive quarterly progress reports during the year, and that the Group had procured a project management solution to enable improved tracking, aligned to performance management and health intelligence data.</p> <p>Following discussion, the Board of Directors:</p> <ul style="list-style-type: none"> (1) APPROVED changes to longer-term 4-year goals to deliver Dedicated to Excellence strategic priorities, and (2) Noted 2023/24 deliverables and metrics, as agreed by each of the responsible committees, subject to further development work and resubmission during the 2023-24 business cycle. 	KS / Exec Leads
9.	<p>Staff Survey 2022: Results and Response</p> <p>The Board of Directors considered a report setting out headline results from the 2022 Staff Survey, which showed a deterioration in outcomes for both trusts within the UHN Group, noting that NGH</p>	

	<p>achieved a higher response rate (48%) compared to 2021 (42%) and to the national average (44%).</p> <p>The results for NGH showed year-on-year improvement in one area (We are a Team), remaining the same in four areas and dropping in four areas. Improvements were seen in three of the four race equality measures, including a positive decrease of 5.8% in respondents experiencing discrimination from their manager or team leader; there was an increase in staff with disabilities being subjected to abuse/bullying and harassment from the public, and feeling pressured to come to work.</p> <p>The survey was carried out after a long and difficult summer which did not provide operational respite from the severe pressures caused by winter and COVID; results were nevertheless disappointing, given the number of actions and initiatives taken and supported during the year. The results showed that much more work was required to ensure colleagues felt recognised, rewarded and respected for their contributions, and it was considered that the key priorities areas, identified in 2022, of Teamwork, Respect, Leadership and Management and Reward and Recognition, remained extant.</p> <p>The Board noted the latest position and reiterated its commitment to the culture and leadership programme, which would launch with a 'discovery' phase during spring as part of a 3-5 year cultural change programme, with further briefings to disseminate the results to colleagues and teams across both organisations. The Board acknowledged that recent instability in the Group's Leadership contributed to uncertainty and anxiety amongst colleagues, and requested 'deep dive' work to understand specific cultural, structural and staffing issues with directorates, wards and teams, with the opportunity for review at the forthcoming Group Board Development event in May 2023. Concurrent work seeking Pathway to Excellence reaccreditation was identified as an additional avenue from which to seek feedback from nursing colleagues around measures with the potential to improve their working experiences.</p> <p>The Board further noted the results from the quarterly People Pulse survey, undertaken in January 2023, which showed a deterioration, including lower response rates, in both organisations; NGH saw a decrease in all three subsets (advocacy, motivation and involvement) but little change in the overall staff engagement score.</p>	
Governance		
10.	<p>Group Governance Arrangements: Review of Pilot, Board meetings 'in common' and Terms of Reference</p> <p>The Board of Directors considered a reporting reviewing the effectiveness of the pilot resumption of 'in common' working for the Clinical Quality, Safety and Performance and Finance and</p>	

	<p>Performance Committees between January – March 2023 inclusive, informed by self-evaluation exercises undertaken by the committees.</p> <p>The Board reiterated its support for the establishment of 'in common' working by committees in order to facilitate the delivery of group objectives for enhanced patient care and opportunities for learning between the Trusts. The Board noted that the Group Clinical Quality, Safety and Performance Committee unanimously supported the confirmation of 'in common' arrangements; however, given the further work required to ensure robust exception reporting from sub-groups and consistent, timely and accurate performance metrics, the Board requested a further review in four months' time, to include an assessment of performance against agreed terms of reference.</p> <p>The Board supported proposals in the report in the respect Board meetings 'in common', and ratified changes to Terms of Reference brought forward by the Committees.</p> <p>Following discussion, the Board of Directors APPROVED:</p> <ol style="list-style-type: none"> (1) The continuation of 'in-common' format for the Group Finance and Performance and Group Clinical Quality, Safety and Performance Committees, in accordance with agreed Terms of Reference, for an addition four-month period, subject to a further review at this point, to include an assessment of performance against agreed terms of reference; (2) Revised Terms of Reference, set out at Appendices C-E to the report, subject to the inclusion of minor changes to wording and membership, to be agreed in consultation with Co-Chairs and Lead Executives; (3) The abolition of the Quality Governance Committee and Finance and Performance Committees, (4) Consequential changes required to the Trust's Scheme of Delegation to take account of the decisions in (1)-(3) above, and] (5) The deferral of implementation of the proposal for the Boards of Directors to meet 'in common', pending a further review to take place by 31 December 2023. 	RA
11.	<p>Fit and Proper Persons Annual Declaration</p> <p>The Board of Directors considered a report confirming the completion of Annual 'Fit and Proper Person' checks for directors, and accepted the Chair's assurance that all Members of the Board of Directors continued to meet the Fit and Proper Persons requirements.</p>	

12.	<p>Annual Self-Certification and new NHS Provider Licence</p> <p>The Board of Directors considered a report and, noting that the Audit Committee had been consulted informally and outside of its meeting schedule, APPROVED positive confirmation for each of the conditions equivalent to the NHS England Provider Licence.</p> <p>In addition, the Board noted the issue of a new NHS Provider Licence, which would apply to the Trust from 1 April 2023.</p>	
13.	<p>Appointments</p> <p>The Board of Directors APPROVED the appointments of:</p> <ul style="list-style-type: none"> (1) Denise Kirkham to the roles of Interim Trust Vice-Chair and Senior Independent Director to 30 June 2023; (2) Anette Whitehouse to the Group Transformation Committee to replace Rachel Parker, and (3) Anette Whitehouse to the position of Non-Executive Safeguarding Lead, to replace Jill Houghton. 	
14.	<p>Questions from the Public (Received in Advance)</p> <p>There were no questions from the public.</p>	
15.	<p>Any Other Business and close</p> <p>The Board of Directors expressed its thanks best wishes to Karen Spellman and Debra Shanahan, who were attending their last Board meetings before moving to new roles.</p>	
16	<p>Exclusion of the Press and Public</p> <p>The Board of Directors RESOLVED to exclude the press and other members of the public from the remainder of the meeting (a Private Meeting followed this meeting), due to the confidential nature of the business to be transacted.</p>

Title	Chief Executive's Report
Presenter	Heidi Smoult, Chief Executive
Author	Heidi Smoult, Chief Executive

This paper is for			
<input type="checkbox"/> Approval	<input type="checkbox"/> Discussion	<input checked="" type="checkbox"/> Note	<input type="checkbox"/> Assurance
To formally receive and discuss a report and approve its recommendations OR a particular course of action	To discuss, in depth, a report noting its implications for the Board or Trust without formally approving it	For the intelligence of the Board without the in-depth discussion as above	To reassure the Board that controls and assurances are in place

Group priority				
<input checked="" type="checkbox"/> Patient	<input checked="" type="checkbox"/> Quality	<input checked="" type="checkbox"/> Systems & Partnerships	<input type="checkbox"/> Sustainability	<input checked="" type="checkbox"/> People
Excellent patient experience shaped by the patient voice	Outstanding quality healthcare underpinned by continuous, patient centred improvement and innovation	Seamless, timely pathways for all people's health needs, together with our partners	A resilient and creative university teaching hospital group, embracing every opportunity to improve care	An inclusive place to work where people are empowered to be the difference

Reason for consideration	Previous consideration
For the Board's information.	None

Executive Summary

Whilst we may have moved out of winter, the pressure and demand on our hospital remains high. We have seen a number of improvements in metrics such as length of stay and Same Day Emergency Care (SDEC) performance, we remain focussed on working collaboratively with system partners to improve flow and Urgent & Emergency Care (UEC). We recently had one of the largest Multi-Agency Discharge Events (MADE) with our system and national colleagues, together, we reviewed over 1000 patients across the whole of the functional areas. We continue to work with the Integrated Care Board (ICB) support on preparations for next winter.

Aside from this, we continue to focus on quality, with our quality and mortality data some of the strongest in the region. We ensure that whilst we may have waits, we put the right cover in place for patients to get the best care, regardless of where they are in our hospital. Lastly, we could not do any of this without our staff. We support them and are committed to improving their working lives.

Operational Pressures

This has been a challenging period with industrial action impacting on flow throughout the hospital but despite this, we have ensured all cancer and urgent operations take place as planned to support our patients. Our teams have been focussed to ensure impact to patients has been kept to a minimum. We continue to work closely with our system partners to maintain flow and ensure patients are kept safe.

Elective Position

Our position remains strong on referral to treatment (RTT) with no patients over 104 or 78 weeks. We are on target to deliver zero patients over 65 weeks by March 24 which is testament to the teamwork and focus of our staff to ensure patients are seen timely and appropriately. We have an ongoing risk with our ENT (ear nose throat) pathway across the system with increasing referrals creating a backlog to clear. The team is working closely with system partners to address these.

Our diagnostic position is recovering with over 65% seen within 6 weeks and increasing. Our teams have worked hard as a system to support new services to build capacity for us, including the introduction of the new Community Diagnostic Hubs which is supporting our MRI position. We also have further plans for CT and Cardiac Echo capacity to increase in the coming months.

Cancer

We are pleased to be achieving the 28-day faster diagnosis at NGH with our Gynae teams leading on performance nationally. We are looking to follow their model in other specialties and share any learning so we can improve collectively as an organisation.

The number of patients over 62 days is already achieving the standard expected for March 24, putting us in the top 3 highest performance in region which is a real achievement for us.

Our 62-day performance remains below target, with a clear focus now on ensuring we bring diagnosis forward in the pathway on certain specialties to support its improvement.

Medical Success

We were incredibly proud of our Head and Neck team who presented at the British Rhinological Society Annual meeting, with the teams showing 3 poster and 1 oral presentation which won the Best Oral Presentation Award. A great, and well deserved, achievement for our medical team.

Industrial Action

We have now received confirmation of the next junior doctor strike, to take place between 0700 on Wednesday 14 June and 0700 on Saturday 17 June. We are continuing our commitment to support the junior doctors' right to strike and will continue to have focus on ensuring the safety of our patients. There has been proactive collaborative working with

the consultant body and teams, and we are grateful to the LNC for their ongoing collaboration with us.

Nursing, Midwifery, AHPs & Patient Services

International Day of the Midwife

On the 5th May, we proudly celebrated the International Day of the Midwife with our first Group conference recognising the invaluable work of our midwives. We were honoured to have Professor Jacqueline Dunkley-Bent open the conference and were inspired by our own midwifery teams sharing their achievements in support of our patients and each other.

NGH Nursing Conference

Later in May we held our annual Nursing Conference. The theme for this year was "Nursing Excellence" and a packed agenda was organised to celebrate all the achievements of our nursing and nursing associate workforce throughout the last year. Speakers included Dame Ruth May, Professor Nina Morgan, Professor Stacy Johnson MBE, and members of our own nursing teams. The day was a resounding success and our teams appreciated being able to connect with each other away from work and value the work that they do in their respective areas.

Call4Concern

We have launched Call4Concern which is a powerful initiative to support adult inpatient safety and is designed to empower our relatives, carers, and friends to escalate their concerns regarding deterioration directly to the Critical Care Outreach Team.

Pathway to Excellence

The Pathway to Excellence survey launched at NGH on 25th May with the trust seeking to be the first organisation in the UK and the second in Europe to achieve redesignation. Pathway to Excellence® designation is earned by organisations who demonstrate their achievements in creating a positive practice environment for the nursing workforce as the benefits are seen to be felt across the organisation. The Pathway to Excellence® programme at NGH has been seen to contribute to an 11% reduction in nurse vacancies, a 22% increase in the number of nurses with a degree and international recognition for the organisation. We have seen high levels of engagement across the organisation with staff making survey stations and boards demonstrating their departments contribution to the programme – this has been a real boost to all our teams, not just nursing colleagues. The Pathway team have shown real resilience and focus to get the survey operational and have shown real dedication and determination to make the process a success. The survey closes on 14th June when NGH will also host Dr Christine Pabico (Director of the Pathway to Excellence Programme) and will receive our results in August.

People

Sunflower Lanyards & Badges

Our Disability & Wellbeing Network (DAWN) in collaboration with the Equality, Diversity & Inclusion (EDI) team have successfully acquired Sunflower Lanyards & Badges for colleagues with a hidden disability. The Sunflower Scheme is a way for colleagues to share, if they wish to, that they have a disability or long-term condition may be hidden, or not immediately apparent. This initiative is vital and a significant milestone in our journey

to equitably supporting all our colleagues, considered work is taking place in terms of engagement to ensure our colleagues know what the scheme is, and how to support them in line with our Trust Values.

Our Space

We have successfully launched “Our Space” with the help of funding from Northamptonshire Healthcare Charity, this is an example of strong multi-disciplinary working and leadership between our People Division and Estates Department with the health and wellbeing of our staff a central focus to ensure we build a place for them that is meaningful and impactful.

Our Space will provide our teams with:

1. A place they can go to pause and relax away from their work environment.
2. A space to connect as a team facilitated and supported by the Health and Wellbeing services.
3. Recognition that ‘its ok to not be ok’ and to provide a confidential, supportive environment for scheduled appointments with the Health and Wellbeing team.
4. An information Hub where staff can find out about Health & Wellbeing initiatives, workshops, and events and how to access confidential support.

The NHS Pastoral Care Quality Award for International Nurses

We have been recognised nationally and awarded the NHS Pastoral Care Quality Award for International Nurses, in recognition of our commitment and drive to provide exceptional pastoral care to our internationally educated nurses and midwives. Our international support function is a true partnership between our Nursing and People teams, and we are fortunate to have such a talented and high-performing team people who provide tailored and high-quality pastoral support, ensuring our new recruits feel supported and valued.

Pulse Survey

We received the results of our quarterly NHS People Pulse Survey and have been pleased that we have seen slight increases across a couple of areas including engagement, motivation, and involvement, which is testament to our focus on building a positive culture and environment for our colleagues. Despite operational pressures I am grateful to those who filled in the survey and were able to tell us how they were feeling at that point in time, the Pulse is a useful tool for us to measure our culture over time and is one of the many ways that our colleagues can feed back to us. We still have a lot of work to do, and we are working closely with our Staff Networks and People teams as this remains a priority for myself and the Trust.

Learning & Development

We have recently piloted a cohort of staff who took part in a course, learning management fundamentals. As a result, we’ve made the decision to retain this as a core programme for our managers at NGH with a lot of support and encouragement from our teams. This supports our Group leadership development offering and was co-produced alongside our managers to understand what they needed, and what they would value in order to develop. This is vital so we can support our current management and develop our future leaders.

Digital

The procurement of our new Electronic Patient Record system continues at pace. We have now received bids and work is now taking place to assess them. In recent weeks we have further improved engagement across the Trust via divisional leadership and we have involved representatives from all roles and areas throughout the Trust to ensure a diverse set of views. We are looking forward to the supplier visits and system demonstrations in the coming weeks so we can understand the full potential of the systems, with minimal impact on clinical colleagues as their views are crucial. We hope to finalise our preferred supplier in the summer with work then taking place to develop our business case and plans, we expect the new system to begin implementation in March 2024 with a rollout expected to take around 18-24 months depending on supplier.

organisational performance on an exception reporting basis. Committee Chairs and Executive Leads will be invited to draw the Board's attention to other significant items considered at meetings, indicating the degree of assurance the committee is able to provide in each case.	
---	--

Executive Summary

The Integrated Governance Report provides a mechanism to provide a holistic overview to both KGH and NGH's performance to support overarching governance of the respective Trust boards in promotion of assurance and continuous improvement. Over recent months, both Trusts have been working to align their metrics under the ownership and responsibility of committees, which monitor the delivery of our Group Dedicated to Excellence Strategy.

Following review at committees during May 2023, the Group Chief Digital Information Officer has met with Executive colleagues who have reviewed and approved their accountable metrics and commentary published as part of this pack.

Key next steps discussed amongst Executive colleagues this month:

- Refinement of sign off process for IGR pack
- Increasing oversight of IGR progress by incorporating IGR status into existing meetings (i.e. Group Executive Meeting) and live tracking spreadsheet to be shared to give ease of oversight for Execs
- Working with national teams (NHS England) to further improve the IGR reports – both back-end and front-end reporting
- Committee attendance by Health Intelligence colleagues to listen to IGR update and capture any key actions re. metric development.

BOARD COMMITTEE SUMMARIES

Northampton General Hospital Board of Directors Meeting: 9 June 2023

AGENDA ITEM 5

Group Strategic Development Committee: 13 April 2023

Group Digital Hospital Committee: 26 April and 11 May 2023

Group Transformation Committee: 17 April and 15 May 2023

Group Finance and Performance Committee: 25 April and 24 May 2023

Audit Committee: 26 April 2023

Group People Committee: 27 April and 25 May 2023

Group Clinical Quality, Safety and Performance Committee: 28 April and 26 May 2023

Elective Care (Lead Provider) Collaborative Committee: 3 May 2023

Group Strategic Development Committee Report to the Board of Directors		Date of reporting group’s meeting: 13 April 2023	
Reporting Director: Stuart Finn			
Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Highlight Report	There had been no update from the national team on the main new hospital scheme (KGH). The national team has informed KGH that it would receive a further £1.06M to maintain the programme team for FY23/24. An update on the Rockingham redevelopment was shared. An option 2 was developed which met the clinical risk and drivers (neonatal and bereavement suite). Areas it did not address were set out in the appendix. The business case and options would be presented to the June Committee.	June-23 (KGH Private Board item: Rockingham)	Reasonable
Community Diagnostic Centres (CDC)	Phase 1 which was the temporary diagnostic capacity was in place. The two spokes were to be in Kings Heath-Northampton and Corby. A professional team had been appointed. A revised plan was coming to the programme board. The aim was for the spokes to be operational by the end of the financial year. The report listed potential areas of risk and there was a possibility that an extra meeting would be needed to oversee/assure decisions are appropriate. It was explained that the CDC programmes are at ICS level, however the ICS cannot hold capital assets, so devolved ownership to the two Trusts. The proposed approach was for Kings Heath to be owned by NGH (workforce/activity/digital responsibility) and the Corby spoke responsibility of KGH.	June-23 (Private Board Agenda)	Reasonable
Net zero carbon agenda	The Committee had been charged with the overview of the net zero carbon agenda. Both sites have green plans and it was in the Group Priorities to ensure delivery of these. A consultant team had been appointed to provide the plan for the de-carbonisation scheme across both sites. A report on the progress and assurance going forward work was being done and needs to come to the June meeting	June-23	Reasonable

Group Digital Hospital Committee Report to Board of Directors	Date of reporting group's meeting: 26th April and 11th May 2023 (1 of 3)
--	---

Reporting Directors: Natasha Chare, Anette Whitehouse

Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Digital Prioritisation and update on currently prioritised projects	<p>The Group CDIO updated on the process that has been conducted so far to refocus the Digital team's activity on current (circa next 12-18m) organisational priorities from the Digital Strategy, the detailed governance process that is being put in place to surround the continual reiteration of this, and the current outputs. This including clarity on what projects could therefore not be prioritised at present, and remain on the long term backlog. It is anticipated that by the time of the next committee meeting the underlying governance structures will be close to operating as planned.</p> <p>At the May meeting, the committee also received the first set of newly re-focussed reporting on the spotlight projects and discussed the risks and matters for escalation included. Those projects spotlighted at the May meeting were as follows: KGH only: Digital Patient Letters & Pathology order comms NGH Only: EPR Procurement & EPMA (Electronic prescribing). Both Hospitals: Vitals further roll-out, Network upgrades, Northants Shared Care Record (ICB led), & Single sign-on. For context, there remain around 100 projects on the digital 'backlog' (projects previously requested by the organisations which are primarily Digital, or where is a significant contributor), around 40 have been prioritised by the organisation and agreed as feasible for delivery in next 12-18 months, with a further 8 still being debated for this list (but where capacity is not currently available), and a subset of 8 of these are currently 'spotlight' projects which the GDHC has asked to track in more detail (due to their high importance).</p>	-	Reasonable Assurance - whilst agreement on priorities at present, ongoing governance processes are still being set-up to ensure this list remains current.
Committee Terms of Reference and surrounding governance structures	<p>Following feedback from the organisation the committee received and discussed a proposed new terms of reference (and would wish to reiterate the desire for operational and clinical attendance) and also a newly designed set of governance structures (including setting out the exact role of the Board, GDHC, the Strategic Delivery Group and the Hospital Management teams in this process as well as the role of the newly designed groups for digital and operational/clinical engagement). These seek to clarify the relationships between these groups in terms of digital transformation, and promote full engagement (on an ongoing, iterative, basis) in the priorities for digital transformation across the group. The committee was assured that whilst a move to a clearer governance structure for prioritisation would inevitably involve challenges in terms of agility, the new structure would represent a strong enhancement. The proposed terms of reference will be provided to the Board for formal approval.</p>	Terms of Reference to go to June Board meeting	N/A - a matter for decision not assurance.

Reporting Directors: Natasha Chare, Anette Whitehouse

Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Digital Restructure – Update and Initial Lessons Learnt	The committee received an update on the latter stages of the digital team restructure, which will result in a combined group team who can be deployed flexibly to better fit the needs of both hospitals. The report also included the results of a reflective exercise on the lessons learnt - which are to be shared with the Group People team for consideration as part of any further team restructures in the group.	-	Reasonable Assurance
NGH Electronic Patient Record Procurement	The committee received an update on the procurement process: there is now a shortlist of four providers. Initial scoring on the detailed criteria from the business case has been completed, and the bidders are now scheduled to provide detailed demonstration sessions to the organisation and visits to sites currently using the shortlisted providers are also being arranged, with a view to being in the position of making a decision in the late summer. The committee welcomed the update, which gave substantial assurance on the adequacy of the process, and following the risks set out in the update, asked for a note to the next meeting to allow the committee to consider possible contingency plans for the various potential outcomes of the procurement process, particularly initial thoughts/planning as to how the risks inherent in the various potential outcomes will be managed, and how the outcomes will impact on the rest of our digital roadmap, priorities and capacity.	Late summer 2023 proposal to come back to GDHC and then Board.	Substantial Assurance
Health Intelligence – Deep Dive into challenges and proposals for the way forward	The committee received a paper from a deep dive exercise, carried out by the former KGH Digital Director, into the challenges of the Group Health Intelligence team and what development was needed to enable them to meet user needs/desires – something which all acknowledged is a significant challenge at present, and is leaving a gap in our ability to manage our two hospitals as effectively as we might. The paper set out an analysis of the challenges (it is not assessed that these are materially different from those previously understood when ‘seed’ investment was granted last year), what has been started in the past to begin to lay the groundwork to address these, and how this was spent, and what is still remaining to do to address the shortcomings in our current information provision, along with costings and options. The committee discussed and challenged the content of the report, particularly around the understanding of the root causes of the challenges, the capacity and capability of the current team to oversee the required improvements, and to what could be achieved with no/less additional funds, especially given the current financial environment. The committee was satisfied that the further funding stated was supportable, and that this should progress to the next stage of prioritisation for funding and other resources.	To go to Hospital Management Teams and Finance & Performance Committee in next cycle.	Limited Assurance – approval and funding remains uncertain, as does our ability to resource the delivery of the solutions.
Upward reporting	Upward reporting to the committee from Operational Meetings, Data Security & Protection Group, and Clinical Design Authority The committee received reporting from those meetings already in place and operating. However not all groups are yet fully established.	June committee.	Limited Assurance

Reporting Directors: Natasha Chare, Anette Whitehouse

Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Group Board Assurance Framework	Following a separate workshop that was held for committee members to review the adequacy of the Board Level Risk that is managed by the committee, the Group CDIO presented a completely refreshed risk report. The Committee approved the reworked version of the BAF, and were assured that it more accurately captured the risk the committee was managing.	-	Reasonable Assurance – some action owners still to be finalised.

**Group Transformation Committee
Report to Board of Directors**

Date of reporting group's meeting: 17 April 2023

Reporting Director: Rachel Parker

Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Introduction – context setting	The committee chair suggested that in light of the changeover on the Board of Directors, it may be an appropriate time for the committee to reflect and reset in relation to what was being done as a Group while continuing to move forward. It was acknowledged that there are some areas where there is not full alignment and where it is difficult to make progress against the Group's strategic objectives. The need to prioritise improvements and work on a small number at a time was acknowledged as well as clarity on what needed to be delivered to achieve the Group's vision. The importance of identifying what the Group needs to stop doing was also acknowledged.	n/a	n/a
Strategic Priorities – setting up delivery success	The committee received a report outlining the approach to setting up programmes to deliver the Group's strategic priorities, and the role of the committee in monitoring delivery of these. The committee received reasonable assurance on this item and suggested that there should be one accountable Executive Director in addition to the leads, for each strategic priority.	n/a	Reasonable assurance
Theatre Productivity	The committee received an update on the theatre productivity programme and noted a significant improvement in theatre productivity which is now in the upper quartile nationally for NGH and above average for KGH. The committee noted that further work is required to fully embed the improvement and ensure that the benefit is able to support the delivery of the operational plan and elective recovery targets for 2023/24. Issues regarding leadership and timescales for work going forward were noted.	n/a	Reasonable assurance
Briefing on next steps in responding to reviews of the Group model	The committee had an in-depth discussion about the recommended way forward following two externally led reviews of the Group model. The committee noted the agreed short term actions to respond to the recommendations of these reviews and discussed the draft 'purpose statement'. The need for clear priorities was highlighted, as was the need to be realistic about what can be achieved with the resources available and financial constraints. Medical Directors highlighted the need for the wider involvement of other trusts outside the county in clinical collaboration, such as Milton Keynes and Leicester. The committee was reasonably assured about the continuing collaboration and urged caution in relation to pausing any collaboration work.	n/a	Reasonable assurance.

**Group Transformation Committee
Report to Board of Directors**

Date of reporting group's meeting: 15 May 2023

Reporting Director: Rachel Parker

Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Foundations for delivery self-assessment	The committee received and noted a report which presented the foundations for delivery self-assessment results. The highlights of the work in progress and the measures being introduced to support improvement were presented to the committee. A need for protected time and clear leadership for quality improvement work to be undertaken was highlighted, as was the importance of culture, awareness and clear communication and engagement. The assessment will be repeated in six months.	n/a	n/a
GIRFT (Getting it Right First Time)	The committee received an update on the GIRFT programme. The committee noted the commitment to GIRFT and that there is a lot of work to do to get the Group to where it wants to be in relation to this. The committee noted that action plans are not yet in place and there is further work to do on the governance of the GIRFT programme.	n/a	Limited assurance
Theatre productivity	The committee received an update on the theatre productivity programme and highlighted the need for workforce plans for both organisations, which will be considered at a future committee meeting.	n/a	Substantial assurance
Clinical Collaboration	The committee received and noted an update on clinical collaboration and was provided with an insightful overview of the data packs that are used to develop the clinical collaboration strategies.	n/a	n/a

Group Finance and Performance Committee Report to the Board of Directors	Date of reporting group's meeting: 25 April 2023
---	---

Reporting Director: Rachel Parker

Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Finance Report Month 12	Public Dividend Capital (PDC) revenue funding was discussed, and it was likely that NGH would require approval from the Group Finance & Performance Committee to submit a request for PDC revenue funding. Therefore, the Group Finance & Performance Committee approved requests for PDC revenue funding up to the amount of the planned deficits for the year. The Committee also approved the request for KGH.	-	-
CDC Governance and workforce plan	An update on progress made with the CDC was shared. The third phase focused on the second business case. The national and regional team were aware and supported with the timeline of the end of June. Capacity and demand had been forecasted and the Ops team were aware. MRI/CT would be added as demand grows.	June 23 (Part II Board Agenda)	-
2023/24 Annual Operational and Financial Planning/Annual Plan	The CFO presented the most up to date numbers with the Committee. There had been an improved financial position for 23/24 of a system total deficit of £38.5m. The two Trusts had committed to an improvement circa £1.5m each. The plan of £38.5m would be shared with NHSE and the CFO would update the Committee on the outcome.	June 23 (Part I Board Agenda)	-
Estates Compliance Report	There had been a fire on 13 March at NGH. It was classed a significant incident and was reported to RIDDOR. The Fire Service has walked through area and completed a fire risk assessment. The Committee was informed of a water leak on 01 and 02 April. There would be learning from both incidents.	-	-

Group Finance and Performance Committee Report to the Board of Directors

Date of reporting group's meeting: 24 May 2023

Reporting Director: Rachel Parker

Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Rockingham Business Case	The business case was received by the KGH attendees. It was discussed that the business case related to the remodelling of Rockingham and not the redevelopment. The option was the best affordable option. There was no additional workforce or increased revenue associated with this (aside from capital charges). The KGH attendees approved the business case	Approved – for Board approved (Part II agenda)	-
CDC Business Case	The business case had been presented to the April-23 Committee in which the Committee supported the writing of the business case. The timeline had now shifted to sooner due to the secretary of state advising no CDC approvals post June-23. The Integrated Care Board has been consulted on the paper and has suggested amendments, these would be incorporated and recirculated to the Committee. The CDC would focus on Endoscopy, with additional MRI/CT as demand increases, subject to agreement from this committee at each incremental increase. The Committee approved the business case.	Approved – for Board Receipt (Part II agenda)	-
Finance Report month 1 (23/24)	The CFO advised that there was a request required to draw down funding/cash support up to £5m per Trust. As the two Trusts had agreed a breakeven plan, they could not request cash to fund a deficit, however could submit a request to support working capital. The Group Finance and Performance Committee approved and authorised the request for both NGH and KGH to NHSE for PDC funding/cash support up to the value of £5m per Trust.	Approved	-
Board Assurance Framework – Deep-dive	The Committee discussed BAF risk UHN04 – in which reasonable assurance was given. The Committee also discussed BAF risk UHN05 – in which limited assurance was given due to the aging site and infrastructure.	-	Reasonable
			Limited
Annual Plan Efficiencies	The Committee was presented an update. A Programme Management Office had been put in to the structure to track efficiencies and ensure delivery of them. There had been work done on executive accountability with an update to be included in next months report.	June-23	-

Audit Committee Report to the Board of Directors		Date of reporting group’s meeting: 26 April 2023	
Reporting Non-Executive Director: Elena Lokteva			
Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Counter Fraud Training	The Committee expressed concern that counter fraud training was still not aligned across the Group. Chair to escalate to Board	June-23	
SICA Report	The Committee received updates from executive leads on their overdue recommendations. There was an increasing number of overdue recommendations and executive leads would continue to be invited to Audit Committees to provide an update	-	Limited
Internal Audit Annual Report 2022/23	TIAA had provisionally awarded NGH reasonable assurance, however noted that there were audit recommendations still outstanding, and it was concerning that there was a risk of the rating being downgraded.	-	Reasonable
Financial Governance Report	The Committee agreed that the format and content needed to be reviewed/aligned with KGH, with the update version to be presented to the September Committee.	Sep-23	-
Group Board Assurance Framework & Corporate Risk Register	This received the Committee's endorsement of the design/process however concerned about the embedding of this. The Chair asked if there was a clear connection from the recommendations from internal audit to the corresponding BAF risks. This would be discussed an update included in the June report.	June-23	-
Terms of Reference	To be further updated to include the Medical Director and revised financial governance report. A revised version to be presented to the June-23 Committee.	June-23	-

Group People Committee Report to the Board of Directors		Date of reporting group’s meeting: 27 April 2023	
Reporting Director: Paula Kirkpatrick			
Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Nursing, Midwifery and AHP Strategy Update	The Committee received an update on each of the pillars within the strategy. Discussion took place on the benefits of Shared Decision Making Councils at NGH, and whether more were needed and what could be done to spread this positive initiative to KGH.	-	-
Deep-dives	The Committee received deep-dive presentations on: Workforce Planning – HCA and Workforce Planning – Maternity.	-	-
Culture	The Committee received presentations on: Culture and leadership programme update/racism, Dedicated to Excellence Engagement Plan, the Anti-Racism Plan, which all generated discussions.	-	-
BAF Deep-Dive	The Committee was asked to feedback on the BAF and whether it addressed the risks held by the Committee. The detailed description of the Group People Plan risk was queried and whether more simple language could be used to manage the risk	-	-

Group People Committee Report to the Board of Directors		Date of reporting group’s meeting: 25 May 2023	
Reporting Director: Paula Kirkpatrick			
Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Maternity Annual Report	The committee thanked the maternity leads for the report asking that during the next iteration that there was increased narrative regarding the voice of the patient	-	Substantial Assurance
The Guardians of Safe Working	It is evident that the planned workforce review will enable the organisations to understand the pressures on rotations & rotas. Alongside this, in advance of the next cohort of doctors in training this year, clarity is required on the management of short notice leave in rotas and the well-being offer to the doctors in training.	-	Reasonable Assurance
Freedom to Speak Up (FTSU) Report	There were helpful discussions regarding themes of fear and futility in speaking up; similar to the national staff survey. The evidence demonstrated the FTSU leads are known and accessible. They were able to demonstrate progress against strategic domains and how challenges have led to improvements.	-	Reasonable Assurance
Safer Staffing Report	The safer staffing report led to detailed discussion about the data, both accuracy and presentation. Equally, understanding what is driving some of the data needs to be explored. The committee congratulated the Directors of Nursing on their achievements including at NGH, the Pastoral Care Award, and at Kettering the roster improvements and the ongoing progression within CYP services.	-	Reasonable Assurance
BAF	The Committee reviewed and endorsed revisions to the risk description, controls, assurances and actions in respect of the risk within its area of responsibility and, whilst concerned in respect of the overall risk score (likelihood and impact), indicated its assurance in respect of the actions, planned and underway, to mitigate this.	BAF at agenda item 7	Reasonable Assurance
People Plans	Our people teams are to be congratulated on the pressure they are working within whilst developing programmes to increase our support for staff.	-	-

Group Clinical Quality, Safety and Performance Committee Report to Board of Directors		Date of reporting group's meeting: 28 April 2023 (1 of 2)	
Reporting Director: Andre Ng			
Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Sub group reports	The committee received and noted upward subgroup reports from NGH and KGH Radiation Protection Committees, NGH and KGH Risk and Assurance Committees, KGH Health and Safety Steering Group, KGH Safeguarding Steering Group, NGH Clinical Effectiveness Group and KGH Quality Governance Group. The committee noted limited assurance from KGH HSSG regarding fire evacuation training. The committee is pleased to have subgroup reporting in place and notes that this is not in place for all other committees. The process of upward reporting to the committee is close to reaching full maturity.	n/a	Reasonable assurance
Integrated Governance Report	The committee received the IGR from which it confirms only limited assurance due to the ongoing issues regarding the alignment of data. The committee would like to see these issues resolved by its 25 August 2023 meeting. The committee is receiving additional individual reports to provide the assurance that the IGR is currently not able to provide; the committee has received reasonable assurance from these additional reports.	n/a	Limited assurance
Joint Urgent & Emergency Care Report	The committee received the joint Urgent and Emergency Care Performance report and was substantially assured by this due to the robustness of oversight and controls. The committee noted the challenges highlighted by the Chief Operating Officers in obtaining the data needed to analyse type 1 and type 2 activity for the last three years to be able to compare this pre and post pandemic.	n/a	Substantial assurance
Directors of Nursing Exception Report	The committee received a report from the Directors of Nursing which provided assurance regarding the identification, management, investigation and learning from all quality and safety issues relating to falls, pressure ulcers and infection prevention and control. This is a report requested by the committee while the issues with the alignment of data in the IGR are ongoing.	n/a	Substantial assurance
NGH Patient Safety Report Q3 2022/23	The committee received the report which provided assurance regarding the management, identification and learning from all patient safety incidents at NGH. The committee will start to receive aligned reporting from both trusts from August 2023.	n/a	Substantial assurance

Clinical Quality, Safety and Performance Committee in Common Report to Board of Directors

Date of reporting group's meeting: 28 April 2023

Reporting Director: Andre Ng

Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Mortality and Morbidity	The committee received and noted the mortality reports for both trusts from which the committee received substantial assurance. The committee noted an in depth review of sepsis mortality at KGH had identified issues with coding and timely administration of antibiotics.	n/a	Substantial assurance
Maternity Safety	The committee received the maternity services joint safety report and noted staff vacancies at both hospitals are high (57 at NGH, 24 at KGH) which is impacting community pathways. The committee was informed that the community midwife venue at Kettering Conference Centre is closing and a tobacco adviser is now in place to address smoking at time of delivery, rates of which are particularly high in Corby.	n/a	Substantial assurance
Safeguarding Report	The committee received the first joint safeguarding report which provided a summary of the safeguarding activity at both hospitals and from which the committee received substantial assurance.	n/a	Substantial assurance.
Industrial Action	The committee received a verbal update on the latest round of industrial action and received substantial assurance that no major issues had occurred at either hospital as a result of this. The impressive level of support that had been given to consultants by Allied Health Professionals and nurses during the latest junior doctors strike was highlighted to the committee.	n/a	Substantial assurance
KGH Children and Young Peoples Improvement Programme	The committee was substantially assured by the overwhelmingly positive feedback that had been received from the CQC following its recent revisit to KGH.	n/a	Substantial assurance

Clinical Quality, Safety and Performance Committee in Common Report to Board of Directors		Date of reporting group's meeting: 26 May 2023	
Reporting Director: Andre Ng			
Agenda Item	Description and summary discussion	Decision / Actions and timeframe	Assurance level *
Sub group reports	The committee received and noted upward reports from NGH and KGH Health and Safety Committees, NGH and KGH Risk and Assurance Committees, KGH Health and Safety Steering Group, KGH Safeguarding Steering Group, NGH Clinical Effectiveness Group, KGH Quality Governance Steering Group, NGH Safeguarding Assurance Group, NGH Patient Experience and Carer Group and the KGH Patient Experience Group. The committee discussed in detail 62-day cancer waits and the management of patients while awaiting diagnosis and treatment. The committee noted limited assurance from the NGH Safeguarding Assurance Group due to the increase of discharge related to S42 safeguarding concerns. The committee had a detailed discussion about this issue and the ongoing in-depth work in relation to this.	n/a	Reasonable assurance
Integrated Governance Report	The committee received an update on the ongoing work on the IGR. The committee received the current version of the IGR on which Executives will undertake further work. The committee agreed to refer to the Group Digital Hospital Committee, the issues with the quality of the data in the IGR. The committee requests that the Group Digital Hospital Committee seeks assurance on the process for the IGR's construction, data validation and sign off and that it comes back to the Board of Directors with a plan to address these issues.	Refer to Group Digital Hospital committee	Limited assurance.
Maternity Safety	The committee received the maternity services joint safety report and noted digital issues with maternity which it agreed to escalate to the Board of Directors.	Escalate digital maternity issues to Board.	Reasonable assurance
Mortality and Morbidity	The committee received and noted the mortality reports for both trusts from which the committee received reasonable assurance.	n/a	Reasonable assurance
Board Assurance Framework	The committee received and agreed the May 2023 updates to the Board Assurance Framework. The committee confirmed it had received reasonable assurance in relation to this.	n/a	Reasonable assurance

Group Elective Care Collaborative Committee		Date of Committee meeting: 3 May 2023	
Reporting Director: Elena Lokteva			
Agenda Item	Description and summary discussion	Decision / Actions	Assurance Level
Delegation: Provider Collaborative Innovator Programme	The Committee endorsed proposals for the Trusts to join an NHS England national innovator scheme to provide direct support for the development of collaborative working in local health systems. The Committee commented and provided feedback on the Draft Problem Statement and Goals, set out in the report.	-	Reasonable
Elective Care Collaborative: Priorities for 2023/24	The Committee indicated its in-principle support for pursuing innovative approaches to service delivery during 2023/24, subject to statutory delegations proceeding and in the context of delivery requirements within the 2023-24 ICS Operating Plan	-	Reasonable

*The Committee will indicate the level of assurance it is able to provide to the Boards of Directors using the following definitions:

Substantial Assurance	There is evidence of a clear understanding of the matter or issue to be addressed; there is evidence of independent or external assurance; there are plans in place and these are being actively delivered and there is triangulation from other sources (e.g. patient or staff feedback)
Reasonable Assurance	There is evidence of a good understanding of the matter or issue to be addressed; there are plans in place and these are being delivered against agreed timescales; those that are not yet delivered are well understood and it is clear what actions are being taken to control, manage or mitigate any risks; where required there is evidence of independent or external assurance.
Limited Assurance	There is partial clarity on the matter to be addressed; some progress has been made but there remain a number of outstanding actions or progress against any plans so will not be delivered within agreed timescales; independent or external assurance shows areas of concern; there are increasing risks that are only partially controlled, mitigated or managed
No Assurance	Management cannot clearly articulate the matter or issue; something has arisen at Committee for which there is little or no awareness and no action being taken to address the matter; there are a significant number of risks associated where it is not clear what is being done to control, manage or mitigate them; and the level of risk is increasing

IGR

May 2023

Metric Categorisation Information

On this dashboard, metrics have been categorised to indicate whether or not they have met their Target, and whether this is likely to be consistent based on statistical analysis of historic results.

- **'Target Met (Consistent)'** = The target has been met and is likely to be consistently met going forwards according to historic values.
- **'Target Met (Inconsistent)'** = The target has been met, however with analysis of past results it may not be met next month.
- **'Target Not Met (Inconsistent)'** = The target has not been met however with analysis of past months it may be met next month.
- **'Target Not Met (Consistent)'** = The target has not been met and is likely to be consistently not met going forward according to historic values.

Statistical analysis method: standard deviation analysis of historic values per metric. If the target is met by two standard deviations above/below the mean then this means new metric results are statistically 95% likely to meet the target. NB: this is purely statistical analysis and does not consider real-world information.

Assurance Icons: **Blue** indicates that you would consistently expect to achieve a target. **Orange** indicates that you would consistently expect to miss the target. **Grey** icons tells you that sometimes the target will be met and sometimes missed due to random variation.

Variance Icons: **Orange** indicates concerning variation requiring action (e.g.: trending away from target). **Blue** indicates potential improvement. **Grey** indicates no significant change (common cause variation).

% Patients satisfaction score: Patient

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	The satisfaction score is calculated by adding together all the "Very good" and "Good" responses, to obtain a percentage from the overall responses.	The satisfaction score remains flat with March 2023.	There has been an increase of 280 feedback responses vs March, however we have robust plans to continue to increase feedback numbers across all patient groups.	Monthly reports sent to departments to share findings and themes of feedback responses. RAG rating now shared with divisions to evidence why participation needs to increase.	Continue to work with low/no responding areas to increase participation and promote FFT and how we gather patient feedback. Actions should be taken from themes and addressed. New targets are being implemented at a department level.
NGH	01/04/23	The satisfaction score is calculated by adding together all the "Very good" and "Good" responses, to obtain a percentage from the overall responses.	An increase in patient satisfaction % score from 88.8% in March to 90.5% increase in April 2023	Not applicable	Publication of the performance improvement to recognise the increase to the satisfaction score.	Provision of Patient Experience performance reports for review and actions where relevant. Performance to be continuously monitored and escalated to the relevant areas as required should the score drop significantly.

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	Number of complaints received in month. This is the number of complaints that proceeded to a formal investigation. Any complaints that were locally resolved withdrawn or escalated to the patient safety team would not be included in this figure, this figure can be provided if required.	We have had a reduction in the number of complaints logged at KGH.	We have ongoing trends around delay in treatment, communication and attitude. We also are opening more than closing.	Workshop conducted, we are reviewing actioning more complaints with local resolution. Close working with divisions around investigations and support team can give to make timely.	New Complaints Manager
NGH	01/04/23	Number of complaints received in month. This is the number of complaints that proceeded to a formal investigation. Any complaints that were locally resolved withdrawn or escalated to the patient safety team would not be included in this figure, this figure can be provided if required.	The number of complaints investigated formally decreased when compared to March.	The number of complaints received does not represent the level of complexity associated with those complaints including an increased number of concerns raised with multiple departments and organisations. Although the number of concerns regarding clinical care and communication has also decreased slightly in number, they continue to remain the top two themes. The complaints team work closely with PALS to ensure that where possible local resolution is achieved to support our patients who require support on a more urgent basis.	Currently working with reduced resources due to staffing issues which impacts the ability of the service to provide training, reporting and other initiatives to address the themes.	Divisions have locally held learning action plans that are robustly monitored through governance.

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	% difference between budgeted establishment and actual establishment	Metric is experiencing special cause variation - trend is showing a negative performance below the mean of 11.80% below the Trust target of 8%	Establishment review in ESR in April 2023 has been brought in line with financial ledger with ESR, creating perception of increase of vacancies (data cleansing issue)	High vacancy in some staff groups especially HCA, RGN, facilities and some medical specialties. The high number of new starters in the organisation each month is causing pressures as existing staff seek to support, induct and train.	Ongoing targeted campaigns via social media and Best of Both Worlds for specific vacancies will continue to support an improved performance in 2023. An increase in establishment is having an impact on vacancies but this may be mitigated by the new hospital vacancy approval process. Recruitment and Education are working closely with Divisional leadership to ensure the pressures are managed and new starters supported in their new roles, a new trust induction format has been launched to support this.
NGH	01/04/23	% difference between budgeted establishment and actual establishment	The value tells us that the 11.49% of budgeted posts are currently vacant.	Particular staff group hotspots for vacancy rates are AHPs, Additional Clinical Services (HCAs), Additional Professional Scientific and Technical and Estates and Ancillary. Factors impacting these particular areas relate to a shortage of staff nationally, and for non qualified staff comparability of pay rates to other industry sectors in the job market.	A further international recruitment campaign for nurses has been partially funded by NHSE with a total of 40 internationally educated nurses to be onboarded by August 2023 and interviews are already arranged. Funding for a further 20 IENs is in the process of being bid for. An overseas programme for AHPs is underway and NHSE funding has been obtained for an overseas midwifery recruitment programme and includes funding for a Midwifery Retention Manager who is now in post. A transformation programme to look at QI for the recruitment and specifically onboarding process is in the process of being developed with the aim of reducing candidate attrition and improving time to hire. Efforts to repurpose resources to the development of attraction strategies has also been mapped out subject to approval.	Weekly meetings are in place to monitor recruitment activities for each Division in a way in which they are mapped to long terms agency use and to ensure that any delays are unblocked and minimised. Time to Hire reporting is broken down into each stage of the recruitment process and monitored accordingly enabling targeted intervention and support as and when required.

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	% of staff leaving the organisation over a 12 month rolling period	% of staff leaving the organisation over a 12 month rolling period	Turnover rates are showing common cause variation and are at 9.18% against a Trust target of 8.5%	Turnover has been increasing but this month has seen a decrease. The metric is above the Trust target and increasing. The local labour market has returned to normal activity and increased competition within this market and turnover rates still need to be closely monitored for specific staff groups.	Work is being undertaken to review exit interviews to ensure feedback is being acted upon and to assess the quality of the data and response rate. Divisions are being asked to review any areas of concern following staff leaving. Engagement with staff is still critical to understand staff views and reasons for leaving. The Staff Survey and Pulse Survey results have been received with Divisional Plans to improve and support staff experience. Further work will be planned following the results of the National Staff Survey.
NGH	01/04/23	% of staff leaving the organisation over a 12 month rolling period	The value tells us that the Trusts turnover rate for the month of April is 7.58%	Issues relate to a tired post pandemic workforce and the risk of those nearing retirement age wishing to retire.	Age profiling to conduct analysis into retirement forecast. Midwifery Retention Manager is in post. Career pathway conversations available in conjunction with Practice Development and learning and development opportunities available including apprenticeships for existing staff. A range of Health and Wellbeing initiatives are available including financial wellbeing support and self rostering is being piloted in a number of clinical areas in order to try to better facilitate flexible working opportunities and support work/life balance.	A particular area of focus at the moment is HCSW retention which has a high turnover rate. This has been addressed locally through externally funded additional posts being put in place to support HCSWs. In addition a collaborative system wide project has been set up to look at HCSW retention. Range of Health & Well-being initiatives in place. Career Development opportunities to continue to be developed and promotion of agile/flexible working and retire and return options to retain workforce.

Complaints	In April 2023 the performance improved slightly to 42%.
Infection Prevention & Control	The IGR now shows COVID-19 HOPA and HODA per 1000 bed days at 1.22 (19 patients) and 1.09 (17 patients) respectively. There were six Gram negative infections in April. All were COHA, with the sample being taken on admission with there having been an inpatient stay in the last four weeks. The Trust is awaiting the ICB to set the ceilings for IPC for 2023-24.
Falls	There were no falls with harm in April.
Pressure Ulcers	There were two Category 2 pressure ulcers recorded in April. There were no Category 3, 4 or unstageable.

Infection Prevention & Control	<p>6 patients developed a healthcare associated C.diff infection (CDI) in April. Post-infection reviews and review meetings are completed for every HOHA and COHA case. The aggregated review of the 2022/23 cases is tabled for IPSG in May 2023 to translate learning into action to inform the 2023/24 CDI Improvement Plan.</p> <p>The number of patients per 1000 bed days that have been in hospital beyond 15 days that have developed a hospital acquired infection (COVID-19). The chart is showing common cause variation. Ideally there would be no hospital acquired infections, however there is currently no national agreed ceiling of tolerance. 17 patients were identified as HODA (a reduction from 21 in March) and 19 HOPA (a reduction from 22 in March). At end of year 222 patients have experienced HODA and 161 HOPA. The annual average HODA/HOPA per average 1000 bed days for 2022-23 is 1.19 and 0.86 respectively. 2020-21 was 1.25 and 1.02. 2021-22 was 0.87 and 0.58.</p> <p>0 hospital onset healthcare associated MRSA Bacteraemias for April.</p>
Pressure Ulcers	<p>the number of pressure ulcer have decreased in the month of April 2023, there has been no moderate harms. pressure ulcers per 1,000 bed days figure was 0.79. This is a decrease of 0.5 from the previous month.</p>
Falls	<p>The value for April 2023 is 0.0 moderate, severe and catastrophic falls/1000 bed days. This is a reduction of 0.19 when compared to March 2023. There were no moderate, severe or catastrophic falls in the month of April 2023.</p>
Complaints	<p>When agreed extension of time requests are included the response rate is 100% however, when they are excluded the response rate drops to 74%.</p>

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	Patients experiencing moderate, severe, catastrophic harm or patient death as a result of a patient safety incident.	The chart is showing common cause variation with variable assurance. The ceiling was set on the average based on Dec-19-Mar-22 numbers and may require revision.	KGH has an average reporting number of 6.85 for the time period Dec-19-Mar-22. 2020-2021 average reporting was 7.25. 2021-22 average reporting number was 6. KGH propose to set the ceiling at 8 pending review. Caution must be applied as harms levels can change pending investigation which may take several months.	The Trust recognises that there will be incidents that do not meet the Serious Incident reporting threshold. Where moderate harm has occurred, such incidents fall within the scope of the Policy For The Reporting And Management Of Serious Incidents, Never Events And Investigations Into Moderate Harm Incidents and its guidance, in terms of provision of root cause analysis investigations and evidence of assessment of harm and duty of candour by the Serious Incident Review Group (SIRG).	For the time period stated, moderate, severe, catastrophic harm or patient death as a result of a patient safety incident equate to 4.17% of all incidents with a patient harm incurred and 1.61% of all incidents reported.
NGH	01/04/23	Patients experiencing moderate, severe, catastrophic harm or patient death as a result of a patient safety incident.	The number of Moderate and above harms recorded on Datix. The 47 incidents above represent unvalidated data, following validation we can confirm there are confirmed reported 23 incidents of moderate harms.	Number of moderate and above harms has decreased from March 2023	Moderate and above incidents are considered in the twice weekly Incident Review Group meeting and declared if they meet the SI Framework 2015 criteria	Serious incidents are investigated using root cause analysis techniques and include recommendations and actions aiming to mitigate against future occurrences

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	Medication incidents reported irrespective of subclass of incident (prescribing, dispensing, administering) and irrespective of harm or level of harm.	The Chart shows common cause variation with no agreed target. Historically the Trust had taken a proactive approach to encouraging incident reporting.	A 'low' reporting rate from an organisation should not be interpreted as a 'safe' organisation, and may represent under-reporting. Subsequently, a 'high' reporting rate should not be interpreted as an 'unsafe' organisation, and may actually represent a culture of greater openness.	The reporting of incidents to a national central system (The National Reporting and Learning System (NRLS)) helps protect patients from avoidable harm by increasing opportunities to learn from mistakes where things go wrong. At a national level the NHS uses these reports to identify and take action to act on emerging patterns of incidents via patient safety alerts. At a local level these reports are used to identify and target areas of risk emerging through deficiencies in policy, practice or process.	In this reporting period 64.51% of all medication incidents were no harms or near misses. Of the incidents where harm was identified 95.45% were low harm. There is one moderate harm for which a briefing paper has been requested for Serious Incident Review Group (SIRG) consideration.
NGH	01/04/23	Medication incidents reported irrespective of subclass of incident (prescribing, dispensing, administering) and irrespective of harm or level of harm.	Reporting of medication incidents is encouraged across NGH. High reporting with no / low harm is considered a good reporting culture. In 2022/23 98-99% of medication incidents reported were no or low harm incidents.	Low reporting may represent an under reporting culture and high reporting a culture of greater openness. Medication incidents are stratified by harm and further analysed for trends.	Incidents reported nationally (via NRLS) and locally for learning. Reporting contributes to patient safety alerts allowing us to learn from mistakes. Themes and trends are monitored through local medicines governance to inform local actions and work programme. Themes from review include storage, labelling errors and omissions.	Continue to encourage reporting and review any / levels of harm. Monitor themes and trends. Liaise through MSO (Medicines Safety Officer) network. Response to alerts and sharing of learning locally.

KGH	01/04/23	Patients experiencing a Gram-negative Hospital Onset Healthcare Associated (HOHA) or Community Onset Healthcare Associated (COHA) infection, defined as: E.coli, Pseudomonas aeruginosa and Klebsiella species.	The chart is showing common cause variation and variable assurance.	Patients experiencing a Gram negative Hospital Onset Hospital Acquired (HOHA) or Community Onset Hospital Acquired (COHA) infection, defined as: E-Coli, Pseudomonas aeruginosa and Klebsiella species. E-Coli occurrences. The Trust is awaiting the ceiling set by the ICB for 2023-24.	The Trust underwent an external visit from NHSE/I regarding the rise in Hospital acquired infections on 23rd March 23. Verbal feedback identified area for improvement acknowledging that the Trust were already aware of these and were proactively working towards improvement prior to the visit. The final report is pending.	All HOHA cases are investigated by the IPC team and depending on the source of the bacteraemia, a post infection review is complete to look for any lapses in care.
NGH	01/04/23	Patients experiencing a Gram-negative Hospital Onset Healthcare Associated (HOHA) or Community Onset Healthcare Associated (COHA) infection, defined as: E.coli, Pseudomonas aeruginosa and Klebsiella species.	NGH had 10 patients develop a Gram-negative blood stream infection (GNBs) in April.	Currently awaiting NHSE standard contract trajectories for GNB for 2023-24.	For each patient a post infection review has been completed and learning shared via divisional Governance Groups and IPC Operational Group. The Catheter Prevention Ward Round commenced in April and the Take Your Gloves Off Campaign continues through April.	The IPC Team continue to deliver on the GNB section of the HCAI Forward Plan which is monitored through IPC Steering Group. The IPC Team are part of the systemwide GNB collaborative and regional NHSE GNB collaborative to reduce incidence of these infections. Current workstreams include a systemwide catheter pathway, catheter care in care homes guidance, development of a training app for care home staff with IPC best practice guidance.

KGH	01/04/23	Combined day & night shift fill rate % for registered & non-registered Nursing, midwifery & AHP staff. Reported nationally to NHSE in accordance with National Quality Board guidance.	The value tells us that combined registered & non-registered staffing fill rates improved in April to 91.11% (March 88.41%). The increased overall fill rate includes an improvement of non-registered day shift fill rate from 82% in March to 88% in April.	The increase in non-registered day shift fill rates is positive. However, further evidence over coming months is required to demonstrate sustained improvement. Low annual leave utilisation in April may have contributed to special cause variation in April data.	Continued participation in recruitment assessment centres by the divisions in order to fill approved vacancies. Ongoing recruitment pipelines including Nursing Associate pathway and conversion from Nursing Associate to Registered Nurse. Continue Effective & Compassionate Rostering Groups to sustain efficient rosters and monitor unavailability management.	Ongoing operational management of staffing shortfalls via the twice daily Staffing Cell.
NGH	01/04/23	Combined day & night shift fill rate % for registered & non-registered Nursing, midwifery & AHP staff. Reported nationally to NHSE in accordance with National Quality Board guidance.	The value tells us that the combined registered and non registered nursing and midwifery fill rates are above the current NGH target and has increased by 5.6% since last December (96.2%). This means that the actual staffing levels met the planned staffing levels 100.4% of the time in January which has a positive impact on patient safety, quality of care and patient experience.	Despite the increase in actual staffing fill rates; Nursing and Midwifery continues to be in excess of 30% unavailability with parenting rates of 5.9% sickness rates above 7%. this indicates that the actual staffing fill rates have been supported by temporary staffing measures via bank and agency. The above 100% is a result of enhanced observation of care being in addition to budgeted establishment but essential to providing safe care to patients requiring enhanced levels of care and un-reflected roster templates changes awaiting to be updated.	The monthly roster metric KPI meetings will continue to focus on managing unavailability, there have been improvements in terms of other leave and roster housekeeping however high rates of sickness require a greater focus. The trust wide ongoing work around agency reduction plans will also be introduce at these meetings for discussion and assurance, as well as the weekly recruitment and retention meetings and progress tracker.	NGH hold twice daily safety huddles to monitor and mitigate staffing concerns and shortfalls where plans are made to provide internal mitigations and redeployment of staff to maintain safety. Temporary staffing is utilised when all opportunity for internal mitigation is exhausted. More recently UHN RAG rating for staffing shortfalls have been agreed and implemented, this has given a greater objectivity in relation to evaluation of shortfalls. this has ensured alignment of approach to staffing evaluation across KGH and NGH

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	Never Events are patient safety incidents that are wholly preventable where guidance or safety recommendations that provide strong systemic protective barriers are available at a national level and have been implemented by healthcare providers. As context between 01 April 22 and 31 March 23, 410 never events were reported nationally. National themes are shared across the NHS for learning.	The chart shows that since November 2021.	Currently none	Datix is constantly monitored and appropriate cases discussed weekly at SIRG (serious incident review group).	Ongoing monitoring and compliance through training, policy and exception reporting. All Never Events are investigated using robust Root Cause Analysis. Learning is shared in the Incident Learning Bulletins, Patient Safety Hot Topics and on the Trust Learning from Investigations page on K-Net.
NGH	01/04/23	Never Events are patient safety incidents that are wholly preventable where guidance or safety recommendations that provide strong systemic protective barriers are available at a national level and have been implemented by healthcare providers. As context between 01 April 22 and 31 March 23, 410 never events were reported nationally. National themes are shared across the NHS for learning.	There have been no never events in April 2023.		Datix is constantly monitored and appropriate cases discussed weekly at SIRG (serious incident review group)	Incidents are considered in the twice weekly Incident Review Group meeting and if appropriate and they meet the criteria set out in the Never Event List 2018 they will be considered for Never Event status. Declarations of serious incidents meeting the Never Event status are investigated using root cause analysis techniques and include recommendations and actions aiming to mitigate against future occurrences.

Outpatients activity (actual vs plan): Sustainability

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	This is the total number of outpatient appointments in the month (face to face and virtual, new and follow up)	This shows that the Trust has delivered over the plan for April at 102% across all outpatients.	Some of this over performance relates to over delivery of follow up activity. There was a significant number of clinics cancelled due to 4 day BMA industrial action in April.	Weekly reporting on activity and outpatient efficiency looking forward being reported to the Trust's Patient Access Board as well as monthly Divisional Workforce, Activity and Finance meetings.	Divisions are looking at opportunities to increase new clinic activity
NGH	01/04/23	This is the total number of outpatient appointments in the month (face to face and virtual, new and follow up)	Data shows that we are delivering above plan at 100.7% against the plan for April (38,202 vs 37,956) OPD appointments	Performance increased in April against plan despite Industrial Action by Junior Doctors when numbers of non urgent / non cancer OPD activity was cancelled. However the target in April was lower than March where we managed 44,043 appointments compared to 38,202 in April.	Weekly monitoring in place with Divisional PTL's and a weekly Access Board meeting where activity vs plan is a standing agenda item.	Outpatient improvement project has recommenced across the group with a Regional focus on DNA's, referral triage and PIFU

Elective inpatient activity (actual vs plan): Sustainability

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	Elective inpatient activity actuals v plan	The chart tells us that inpatient activity is at 88.4% of plan for April	Inpatient activity was affected by the junior doctor industrial action	Weekly Reset and Access meeting examines specialties where activity is below plan and requires actions to be taken - chaired by Deputy COO. Detailed analysis of activity by HRG requested of Health Intelligence to ensure coding is maximising opportunity in counting activity.	Backfilling of lists takes place wherever possible with alignment of unavailability through staffing wherever possible to minimise disruption
NGH	01/04/23	Elective inpatient activity actuals v plan	The Trust saw 113% (325 vs 287 target) of its Elective activity vs plan during April 23	Performance improved significantly in April from 75% to 113% despite the Industrial Action by Junior Doctors when numbers of non urgent P3 and P4 surgery was cancelled. These figures are pleasing in showing that we managed to maintain our urgent P2 category surgery which included cancer cases	Theatre transformation programme in place and improvements in utilisation rates and start and finish times already being seen with month on month improvements	Weekly theatre transformation meetings in place chaired by COO / DCOO. Robust cancellation escalation process in place to ensure all actions are taken before any list is taken down. Driving down late starts and late finishes in theatre. A step change in utilisation of theatre lists has been seen in 2023 thus far

A&E activity (actual vs plan): Sustainability

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	A&E attendances	We saw a slight decrease in total attendances, although ambulance conveyances remained constant	Safety concerns remain in respect of overcrowding in the current ED estate due to the volume of attendances at peak times of the day, combined with Trust capacity to move confirmed admits from ED	Continued focus on the 4-hour task and finish group; which will include targeted work on increasing flow out of ED to speciality SDECs Plan to implement process for ED Ambulatory Majors patients triaged directly for MSDEC and tagged on Careflow Plan to review all activity in MIAMI against standard and non urgent triage demand with a view to extending operational hours Comms to GP colleagues looking to reinvigorate engagement with MSDEC referrals	Trustwide full escalation protocol with implementation of Rapid transfer protocol. Move of patients against confirmed and predicted discharges from base wards to support capacity pressures in ED.
NGH	01/04/23	A&E attendances	Decrease in attendances in April.	Whilst is it a decrease, this is almost on what the plan suggested. The issue is that admissions have stayed high, suggesting less lower acuity patients, with a sustained admission number. This continues to create flow issues with almost 100 waiting for pathway beds in the community, and some issues around internal LoS due to outliers of Medicine into Surgery.	UEC Flow board programme of activity supporting flow. BAU activities such as Board rounds and IVABx challenging continues. The system has the new UEC Board looking at flow after a comprehensive MADE event in April reviewed 1000 patients.	Flow projects. BAU flow programmes daily. when busy all internal meeting stopped to ensure board rounds are happening. Extra medical consultants in ED, and outliers covered by extra medics.

Metric	Comment
Cancer	<p>Performance was impacted by capacity loss with the Jnr Dr and nurse IA and b/h capacity loss in May. As a result, the size of the backlog increased by 40 patients and is now at 97 beyond 62 days against a target of 50. This is putting our recovery target of treating 85% within 62 days of referral from July at risk.</p> <p>Despite this the trust remains one of the best performing Trusts regionally for most cancer related performance targets, in particular the faster diagnosis target where we are a national leader.</p> <p>Focus on the actions in the recovery plan continue, which remains the method to improve performance.</p>
Diagnostics	<p>An improvement to 48% for the trust although improvement has reduced due to the u/s position not improving as expected. Aims is for 85% performance by March 2024 of which the trust is confident in achieving for all modalities although risks remain in the following:</p> <ul style="list-style-type: none">• U/S - approval for additional capacity approved, and once staffing has been onboarded, they will be dedicated to clearing this backlog.• Risks remain in Cardiac MRI and Neurophysiology due to reliance on temporary capacity, and Audiology and Respiratory modalities reliant on recruitment. These modalities are being tracked closely to give as much notice of increased delivery risk. Case to reduce backlog in Cardiac MRI is with the Division.
IA Impact	<p>Jr Dr Strike Action took place in April 2023 impacting on both inpatient and outpatient activities. In total 21% of April working days were impacted due to IA. This has had an impact on RTT and cancer performance with patients being stood down and delayed. Patients have been re booked at their earliest convenience and continue to be monitored to ensure no clinical harm has been a result of the interruption to services.</p> <p>Further BMA IA has been scheduled for 14-16th June</p>

Metric	Comment
Referral to Treatment (RTT)	<p>We have no patients waiting over 78wks one of only 3 hospitals in the region. We have 16 patients waiting over 65 weeks with a plan to achieve zero by March 24 (national target)</p> <p>As at end April we had 322 patients whom have waited over 52 wks for treatment against our IBP target of 246. Our current plan is to reduce the number over the year to 125 by March 24. National expectations currently are zero 52 weeks by March 2025 (a year later). The key issues faced include:</p> <ul style="list-style-type: none">Continued industrial action results in hundreds of both inpatient and outpatient appointments. All of which need to be rescheduled and added to the patients already waiting to be seen. This impacts on waiting times for the entire PTL as all patients need to be rescheduled and rebooked.Patient choice for those in education as exam periods start. Many parents do not wish to have children treated at this time and are choosing to wait until July for treatment for their children.Capacity within Medical specialties continues to be a challenge as the services struggle for both New and Follow-up capacity. These are being escalated weekly to the divisional director for decisions on WLI usage.Surgical specialties struggle with capacity within ENT and Oral Surgery with insourcing of theatre capacity starting in June to focus on these specialties.

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	% of patients not seen within six weeks	Unvalidated performance for April 2023 is 48% against the national 99% target in financial year target of 85%	<p>Delivery of CTC Tests has been difficult due to limited physical capacity to see increased numbers of patients. Neurophysiology have no longer been carrying out WLI's this FY of which has meant the increased waiting list and patients over 6 weeks</p> <p>Leave within Respiratory services has seen a decline in performance - this is only set to be an in month issue. Limited capacity within Audiology has seen the increasing waiting list and slow decline in performance.</p> <p>Cardiac MRI tests are still delayed due to capacity - current waiting list of over 700 patients with over 600 already past 6 weeks in their wait.</p> <p>2WW demand in Endoscopy has seen the delay to test for routines.</p>	<p>With the launch of the CDC more routine CT work will be delivered off site which will allow more complicated work to be carried out on site such as CTC. This is being worked through with the heads of the modalities and will see the increased delivery of these tests. Neurophysiology will continue to present the impact to patients and performance to their DD (Medicine) for decision around funding for WLIs. Audiology continue to look for additional capacity to support service delivery. Approval has been given to run additional list at the weekends to support both DM01 and standard Audiology services. The Medicine division have been asked to detail the delivery plan for Cardiac MRI. PTL meetings take place with Endoscopy to ensure patients are booked in date order where possible understanding the dedication of resources to 2ww and Urgents.</p>	<p>Continued weekly DM01 Access meetings with the head of access to ensure all concerns are presented in a timely manner and escalations can take place.</p> <p>Weekly reporting of Imaging and Cardia performance to PAG</p> <p>Monthly reporting of performance to OMG</p> <p>Weekly PTL meetings with Endoscopy and Imaging modalities</p>
NGH	01/04/23	% of patients not seen within six weeks	Note value for April is un-validated performance. Value denotes underperformance against diagnostic target of 99%.	<p>Cardiology Echoe's are still constrained given delay in delivery of CDC activity related to Echoe's due to digital connectivity and workforce issues.</p> <p>Audiology service has suffered with limited capacity and has been asked for a recovery plan.</p> <p>Ultrasound due to MSK demand remains constrained. Constraints/Pressures from previous month are ongoing:</p> <ul style="list-style-type: none"> • High volume of referrals. • Echo continue to be challenged • Increased Inpatient, Cancer and Urgent care demand across all modalities. • Continued emergency pressures and Covid-19 demand. • Volume of cancer inpatient demand & urgent care work has impacted on the backlog clearance. • Skill mix within the modalities to meet demand of tests needed 	<ul style="list-style-type: none"> • Focused work to prioritise long waits and reduce 13WW continues • Accelerated CDC capacity in March and continued via interim solution - Xyla lists continue - DSE additional weekend work to commence - Audiology asked for a recovery plan - U/S scoping swap with MRI and Locums however limited availability • MSK/U/S additional sessions when possible are being undertaken • PET-CT capacity in place now providing additional CT capacity 	<ul style="list-style-type: none"> - standing agenda item at Access Committee and Weekly diagnostic PTL - Weekly CDC task meeting

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	% of patients waiting more than 18wks for treatment (incomplete pathways)	The median RTT wait for incomplete pathways for March 2023 has remained stable at 12.5 week.	There are currently zero patients over 104w, or 78w. The current longest waiting patient is at 75 weeks with a TCI planned in May 2023. Currently theatre utilisation is over 80% and clinic utilisation is also performing well at 90+% in week. Despite this performance levels and activity levels there is still a requirement to provide more capacity to increase clock stop activity	Agreement has been given to financially support the increas in capacity for elective surgical care. This in turn will provide more capacity for surgical clock stop activity. This will support specialties with long waiting patients such as Oral and ENT	Templates have been revised for this financial year which has already resulted in more capacity being identified. Additional funding agreed to be allocated to support particularly challenged specialties. PTLs will continue to ensure patients next steps are in place or escalation in place to see them agreed. Validation of patient pathways continue to ensure the PTL is clear of DQ errors.
NGH	01/04/23	% of patients waiting more than 18wks for treatment (incomplete pathways)	Median wait remains between 12.5/and 13.5.	There are currently 0 patients waiting above 78+ and 104+. Despite performance in activity levels due to increased referral rate with April seeing a 5% increase in referrals compared to previous year there is a requirement to provide more capacity to increase the clock stop rate to match the demand. - Constrained ENT capacity with increased level of Demand as per size of waiting list and 52+	Same as size of waiting list and 52+ Text validation being explored with ENT to check whether patients still want to be seen and triage process being reviewed. Weekly monitoring at PTL and standing agenda item and Access Committee continue.	Weekly monitoring at PTL and weekly validation of all patients waiting over 35 weeks. Standing agenda item and Access Committee continue.

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	Theatre utilisation % against 85% national target	The chart tells us that theatre utilisation was at 79% in April. This metric has reverted to the touch-time utilisation with touch-time + turnover at 90%.	Theatre utilisation was affected by a high number of late cancellations of patients and late pre-assessment processes	Daily monitoring of booking levels by the WL Office and a focus on theatre starting times to ensure patients are not cancelled due to running out of time	Relaunched 642 and theatre scheduling meetings with improved booking practice. New accommodation for Pre-Assessment Service identified in early December for increased face to face appointments - further delays to estates work to increase this further.
NGH	01/04/23	Theatre utilisation % against 85% national target	Theatre utilisation excluding touch time is 76%.	Nexus system unable to retrieve historic timings of operations for Consultants. CCS unable to retrieve this data from Nexus	Nexus upgrade required 6-4-2 planning meetings	Consultants to write timings of operations on waiting list cards / ICE.

Stranded patients (7+ day length of stay): Systems and Partnerships

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	Number of patients with a LoS > 7 days	The number of stranded patients has remained at its highest in over a year during March & April 2023	Ward round processes need to remain robust and all aspects need to be maintained to achieve LoS benefits Staffing has impacted on ward ability to maintain and monitor scorecards	Areas for improvement: leadership on board rounds, appropriate membership, allocation of actions and tasks and follow up and closure of actions	HOD monthly meeting to monitor flow and discharge profile
NGH	01/04/23	Number of patients with a LoS > 7 days	384 patients over 7 days LoS. This has been moving the wrong way for two months since the new Financial year started and financial changes impacted on us.	Has been slowly moving up since April and funding mechanism have changed. NGH lost Hospital @ Home and Therapy supported Discharge. In addition, EMAS have lost extra ambulances to support discharge on the day which is impacting us.	Internal flow programme of activity. External UEC programmes along with focus on BAU board rounds work.	Internal flow programme of activity. External UEC programmes along with focus on BAU board rounds work.

Super-Stranded patients (21+ day length of stay): Systems and Partnerships

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	Number of patients with a LOS> 21 days	super stranded numbers have risen in April	3 Bank Holidays & Industrial action reducing the number of days all services are running at full capacity Cessation of funding for winter pathways and reduction in specialist pathways e.g. delirium	Quality control process implemented prior to SBAR submission Continued working with partners to improve pathways and expedite delays 2x weekly meetings in Medicine to review super stranded patients in addition to weekly super complex meetings Trust wide Weekly meeting with Housing support for pts with no fixed abode Review process with LPOP and D&D to support dementia and delirium	Monitoring progress via Discharge Dashboard Continued sharing information and improvements with partners
NGH	01/04/23	Number of patients with a LOS> 21 days	Increase of 18 from previous month waiting over 21 days.	Decrease in funding available since April 23 meant no Hospital @ Home for NGH. Additionally, pathway discharges have decreased meaning our backlog has gone to over 100 patients.	Focus on board rounds, regular reviews of top 20 highest LoS. Flow board programmes, system wide UEC board programme started.	Stopping other activity to support flow. Keeping increased high costs agency to support outliers and long waiting patients in ED.

Site	Date	Background	What the chart tells us	Issues	Actions	Mitigations
KGH	01/04/23	Number of patients who have a reason to reside in hospital based on national reason to reside criteria	An increase in the proportion to 75.8% in the last month reflecting increased acuity and drive to discharge those with no reason to reside	26% of patients (approx. 120-130) do not have a reason to reside, with approx. 70-80 of these awaiting supported care discharge, and a further 20-30 patients in the process of identifying the supported discharge package required. The remaining 10-20 are in our gift to ensure are discharged expediently Rehab capacity is a bottleneck.	Continued focus on those patients not requiring supported discharge (pathway 0) with the aim to have <8 by the 18.00 every day Ensuring the process to allocate a supported package has minimal delays and is identified while a patient has a reason to reside Continued work with partners to ensure a continual flow of supported discharges take place and identify gaps in provision	Ensuring the process to allocate a supported package has minimal delays and is identified while a patient has a reason to reside Continued work with partners to ensure a continual flow of supported discharges take place and identify gaps in provision
NGH	01/04/23	Number of patients who have a reason to reside in hospital based on national reason to reside criteria	Patient numbers have decreased with a RTR. This is reflective of the delays in discharge with 170 being MFFD on day or writing report.	Wards are waiting for long periods for the process to discharge to system beds and support. For example, on the day of writing, Victoria ward has 2 patients who are for review, the other 16 beds are all medically fit, waiting for a community or social care bed.	Continued focus on flow, Pathway 0 patients, moving our pathway patients to Medically fit as soon as possible in pathways. UEC board in the system is now running, with internal board rounds and focus on IVABx and Frailty continuing.	Extra Medics to support patients in ED and outliers around wards that should be on medical wards.

NGH Board Finance Performance

Month 1 (April 2023) FY 2023/24

Income and Expenditure – In Month

The Month 1 position is a £3.7m deficit which is £0.8m worse than the £2.9m deficit plan.

This has been impacted upon by under delivery of efficiencies in the month, ongoing industrial action, utilities inflationary pressures and income being lower than plan.

Capital

NGH incurred minimal (£0.05m) capital spend in April, however payments of £2.5m were made in respect of 2022/23 closing creditors. The total plan for the year has risen from an initial £35.3m to £37.8m by month 1 due to the anticipated allocation for the “additional activity targeted investment fund” (ACTIF) to repurpose the vacated ITU space..

Cash

NGH cash balance at the end of April is £3.1m (March £1.8m). Whilst cash balances have increased from March, this is less than the anticipated closing balance of £4.8m due to higher than anticipated levels of creditor payments. Cash balances will continue to be closely monitored in year but are not currently considered to be subject to material risk at this stage.

Other Key Assumptions for Month 1 Reporting

- No ERF claw-back
- Accrual of 2% for 2023/24 pay award across all staff, per original planning guidance. Re-accrual of 2022/23 pay award to pay in June
- Accrual of 2023/24 expenditure growth as a result of activity growth and ERF related additional staffing costs per agreed resourcing in the plan
- No generic additional accrual for future inflationary rises in non pay
- Accrue to breakeven in any areas where actual activity data is not available

NGH M1 Position				
Description	23-24 Annual Plan	In Month		
		Plan	Actuals	Variance
	£m	£m	£m	£m
Total Income	473.3	38.2	37.7	(0.5)
Total Pay	(314.1)	(27.6)	(27.9)	(0.3)
Total Non Pay	(163.3)	(13.0)	(13.0)	-
OPERATING DEFICIT	(4.1)	(2.4)	(3.2)	(0.8)
Capital Charges	(5.7)	(0.5)	(0.5)	-
Trust Surplus/(Deficit)	(9.8)	(2.9)	(3.7)	(0.8)
System Support Funding	9.8	-	-	-
I&E Surplus/(Deficit)	-	(2.9)	(3.7)	(0.8)

NGH Finance Overview

The in-month position is a £3.7m deficit which is £0.8m adverse to plan. This will be impacted upon by under-delivery of efficiencies in month.

Income – £0.5m adverse this month due to lower than planned private patients, overseas visitors and training and development income. This is not unusual in Month 1 and often includes an element of late data that will be caught up in Month 2.

Pay – £0.3m adverse including a £0.2m impact of ongoing industrial action.

Non-pay – Minimal (£0.03m) adverse in month.

NGH - Pay: Temporary Staffing

NGH Temporary Staff Costs M1									
	Agency			Bank			Overall Temporary Staff		
	Plan	Actual	Variance	Plan	Actual	Variance	Plan	Actual	Variance
Staff Type	£000's	£000's	£000's	£000's	£000's	£000's	£000's	£000's	£000's
Senior Medical	592	755	(163)	459	1,345	(886)	1,051	2,100	(1,049)
Junior Medical	308	308	0	510	319	191	818	627	191
Qualified Nursing	240	271	(31)	976	1,125	(149)	1,216	1,396	(180)
Unqualified Nursing	282	410	(128)	941	623	318	1,223	1,033	190
Other Staff	629	451	178	407	348	59	1,036	799	237
Total	2,051	2,195	(144)	3,293	3,760	(467)	5,344	5,955	(611)

In Month 1 Temporary Staff expenditure was £5.96m, 21% of Total Pay.

Agency spend at £2.2m per month remains higher than the identified agency ceiling.

Bank staff expenditure at month 1 includes an allowance for the 2% pay award estimate included in the planning assumptions. This will require confirmation in subsequent months and estimates updated accordingly.

Bank spend continues to be influenced by the ongoing industrial action. The overall impact of which is calculated at £0.2m for Month 1.

The key movements from the opening balance are:

Non Current Assets

- M1 Capital additions of £0.1m, includes MESC Spend £15k, Estates Spend £22k & Digital Spend £16k

Current assets

- Inventories - £0.2m. Increase in Pharmacy (£0.3m) and Pathology (£0.1m) stockholdings offset by decrease in Pacing devices (£0.2m).
- Trade and Other Receivables – (£0.6m) due to: Increases in NHS Income Accruals (£1.3m), VAT reclaim (£0.9m), Non-NHS Debtors (£0.2m) and Prepayments (£2.4m). Decreases in NHS Receivables (£2.5m), Trade Receivables (£0.5m) and Capital Receivables (Salix Grant) (£2.3m).
- Salary overpayments – Increase in month of £4k with an overall balance of £0.54m. Year to date overpayments are £17k which is less than the same period last year (£47k). The number of occurrences is also less (5 compared to 9).
- Cash – Increase of £1.3m

Current Liabilities

- Trade and Other Payables – £3.5m due to: Increases in PDC Dividend Capital (£0.5m), NHS Payables (£1.1m), Trade Payables (£1.0m), Tax, NI and Pension Creditor (£0.1m), Accruals (£1.7m) and Receipts in Advance (£2.3m). Decreases in Capital Creditors (£3.1m).

Non Current Liabilities

- Finance Lease Payable - £0.2m. Nye Bevan and Car Park lease repayment (£0.1m). ROU Assets (£0.1m)
- Loans over 1 year - £0.1m. Repayment of Salix Loan.

Financed By

- I & E Account - £3.6m deficit in month.

Title	2023/24 Annual Plan Final Submission
Presenter	Jon Evans - Group Chief Finance Officer
Author	Lisa Humpage - Head of Integration and Partnerships Jon Evans - Group Chief Finance Officer

This paper is for			
<input checked="" type="checkbox"/> Receive	<input type="checkbox"/> Discussion	<input type="checkbox"/> Note	<input type="checkbox"/> Assurance
To formally receive and discuss a report and note the submission, approved under delegated powers	To discuss, in depth, a report noting its implications for the Board or Trust without formally approving it	For the intelligence of the Board without the in-depth discussion as above	To reassure the Board that controls and assurances are in place

Group priority				
<input type="checkbox"/> Patient	<input type="checkbox"/> Quality	<input checked="" type="checkbox"/> Systems & Partnerships	<input checked="" type="checkbox"/> Sustainability	<input type="checkbox"/> People
Excellent patient experience shaped by the patient voice	Outstanding quality healthcare underpinned by continuous, patient centred improvement and innovation	Seamless, timely pathways for all people's health needs, together with our partners	A resilient and creative university teaching hospital group, embracing every opportunity to improve care	An inclusive place to work where people are empowered to be the difference

Reason for consideration	Previous consideration
The final submission of the 2023/24 operational plan is presented to the Trust Board for receipt, comprising the NGH and KGH submission made on 4 th May 23 as part of the Northamptonshire ICB Operational Plan submission, noting the key risks identified, proposed mitigations and next steps.	<p>This final plan was approved for submission via delegation from the Boards of Directors to the Trust Chairs, Chief Executives and Group Chief Finance Officer, in consultation with the Group Finance and Performance Committee.</p> <p>This follows the approval of the original draft plan submission at the Group Finance and Performance Committee on 28th March 2023. This plan was reviewed by both NGH and KGH Boards at a briefing on 27th March 2023 and presented for assurance on 5th May 2023.</p>

Executive Summary

The initial planning round process for 2023/24 was completed on 30 March 2023 with draft submissions to NHS England (NHSE) on this date.

The submissions comprise multiple elements, namely:

- Activity & Performance
- Workforce
- Finance (System & Providers)
- Narrative

Following national feedback, a final submission of the operational plan was required on Friday 4th May 2023. A summary of this paper is presented here for the Board's receipt, information and assurance.

The main changes between the initial draft submission in March and the final plan submission in May relate to the financial plans, moving to a breakeven position across each Trust and the ICS.

No further updates were made to the activity and performance plans.

Plan summary

- The system has collectively agreed a final financial plan with all parties accepting risk
- Financial plan is for breakeven and both NGH and KGH
- Operational plans propose to deliver on;
 - Elective recovery; Each Trust has been set an Elective Recovery target with NHS Northamptonshire ICB as a % of 19/20 weighted activity (NGH 108.9%; KGH 104.5%). Additional productivity, transformation and in-sourcing outsourcing reinstated delivers elective recovery performance at 100% for KGH and 107% for NGH. System submission includes advice and guidance and other providers and achieves 109%
 - Achievement of cancer standards
 - No 65-week waits in the plan from March 24
- Achievement of diagnostic standards from March 24
- Achievement of the 4-hour A&E requirement from March 24
- Reduction in workforce across NGH and KGH in line with efficiency targets. Efficiencies removed from bank/agency and 2023/24 establishment as per efficiency plan.

The following challenges remain

- Non-achievement of 92% bed occupancy
- Development and delivery of the efficiency programme – increased to 5% 'cost out' in the final submission.

Appendices

2023/24 UHN Final Planning Submission

4th May 2023 Summary

Boards of Directors, 8-9 June 2023

- ▶ The planning round process for 2023/24 was due to be completed on the 30th March 2023 with final submissions to NHSE/I due on this date (draft submission made on 23rd February).
- ▶ National feedback from NHSE/I required a further final submission to be made by 4th May 2023.
- ▶ As with other years, the submissions comprise multiple elements, namely:
 - ▶ Activity & Performance
 - ▶ Workforce
 - ▶ Finance (System & Providers)
 - ▶ Narrative
- ▶ The main changes between the initial draft submission in March and the final plan submission in May relate to the financial plans, moving to a breakeven position across each Trust and the ICS.
- ▶ No further updates were made to the activity and performance plans.

Submission Summary

Final Plan Summary

- ▶ The system has collectively agreed on a financial plan with all parties sharing the risk
- ▶ It gives UHN a major challenge to deliver on and requires all assumptions to be delivered in order to achieve the plan
- ▶ We are proposing to deliver on;
 - ▶ Elective recovery; Each Trust has been set an Elective Recovery target with NHS Northamptonshire ICB as a % of 19/20 weighted activity (NGH 108.9%; KGH 104.5%). Additional productivity, transformation and in-sourcing outsourcing reinstated delivers elective recovery performance at 100% for KGH and 107% for NGH. System submission includes Advice and Guidance and other providers and achieves 109%
 - ▶ Achievement of cancer standards
 - ▶ No 65-week waits in the plan from March 24
 - ▶ Achievement of diagnostic standards from March 24
 - ▶ Achievement of the 4 hour A&E requirement from March 24
 - ▶ Reduction in the workforce across NGH and KGH in line with efficiency targets. Efficiencies removed from bank/agency and 2023/24 establishment as per efficiency plan. The majority of WTE remains static as all leavers are assumed as being recruited into.
- ▶ The following challenges remain
 - ▶ Continued non-achievement of 92% bed occupancy
 - ▶ Efficiency programme under development; 5% cost out target agreed

Performance Summary RAG rated table

Summary plans for the performance standards are included below.

Area	KPI	Target	NGH	KGH	Summary
Elective Care	Elective Recovery Activity (Elective IP, DC, First OP and OPROCs - Value Weighted)	Northamptonshire ICS target to 113% of 2019/20 activity by March 2024 (109% average over 23/24) KGH target within ICS = 104%, NGH target within ICS = 109%	106%	100%	ERF funding included in plan for each trust, clawback mechanism will be in place for non-achievement of trust level targets. Trust targets included here exclude additional for Advice and Guidance Northamptonshire ICS position is 109% by March 24
	Incomplete RTT pathways of 65 weeks +	0 by March 2024	0	0	KGH and NGH trajectory to reach 0 by January and March 2024 respectively
	Outpatient follow up activity	Reduce by 25% against 2019/20 levels by March 2024	93%	92%	% shown as March 2020 vs March 2024 Plans incorporated to reduce follow-up numbers through OP transformation - unappointed backlogs still to be cleared. Trajectory increases through year means run-rate leaving year at c. 20% reduction
Urgent and Emergency Care	% A&E attendances departing within 4 hours	76% of patients waiting no more than 4 hours by March 2024	80%	76%	A&E 4 hour trajectory not currently measured at KGH (starting in April) submission based on meeting target required
	Adult general and acute bed occupancy	Reduce occupancy to 92% or below	100%	100%	Bed modelling at both Trusts shows shortfall in current funded bed base vs demand
Cancer	No. of cancer pathways waiting for 63 days or more	Reduce number of patients waiting over 62 days – NGH target = 116 ; KGH target = 93	95	35	Both Trusts currently achieved the target waiting list number and further recovery plans in place to continue to reduce this further in 2023/24. Assumes investment in specific capacity cases (gynae 1-stop and pathology)
	Cancer Faster Diagnosis (within 28 days)	Meet standard by March 2024 (75% within 28 days)	75%	75%	Both Trusts currently consistently meeting target – plan to maintain achievement of 75% as a minimum
Diagnostics	Diagnostic waiting list over 6 weeks	Increase % of patients that receive a diagnostic test within 6 weeks – 85% by March 2024, 95% by March 2025	98%	91%	Both NGH and KGH forecast to achieve 85% target by March 2024 across DM01 modalities planned NGH overall achieves 85% for endoscopy however shortfall to target in Colonoscopy (82%). Plans included additional capacity from CDC.

- ▶ Workforce increase of c10% versus pre-pandemic
- ▶ Reduction in workforce of 4.0% planned
- ▶ Majority of reduction in Agency, but still with small reduction in Substantive
- ▶ Profile assumes all changes implemented by August

Capital

NGH

£37.0m total spend

- ▶ £15.2m - Internal capital programme
- ▶ £3.0m - Community Diagnostics Centre (CDC)
- ▶ £9.9m - Public Sector Decarbonisation Scheme (PSDS)
- ▶ £6.4m - Front Line Digitisation / EPR
- ▶ £2.5m - UEC

KGH

£32.5m total spend

- ▶ £12.8m - Internal capital programme
- ▶ £13.3m - Community Diagnostics Centre (CDC)
- ▶ £5.3m - New Hospital Programme (NHP)
- ▶ £1.1m - Front Line Digitisation / EPR

Finance Plan

Key Delivery Assumptions:

- ▶ Energy increases, as notified by Estates, potential upside TBC
- ▶ No revenue impact of Community Diagnostics Centre (CDC), assumed cost neutral
- ▶ No negative impact of commissioning round (e.g. CQUIN, high cost drugs / devices, elective reverting to PbR)
- ▶ Delivery of efficiency and transformation, with improvements in productivity (theatres / OP) and reductions in premium cost (agency)
- ▶ Ability to deliver activity growth within existing cost base / assumed funding
- ▶ Capital funding per system allocations methodology

Key Issues / Challenges:

- ▶ No finalised position re system capacity / investment on flow / beds
- ▶ Limiting investments / cost pressures to totals agreed in plan, zero contingency in plan as allocated to identified capacity pressures
- ▶ Continued System challenge and understanding of increases in cost base (since 2019/20) and impact of activity volumes

Finance Plan

Key Financial Planning Assumptions

- ▶ **5.0% cost out efficiency**, majority delivered through a reduction in **Pay**
- ▶ **Margin on activity growth** / elective recovery (£5.5m KGH and £5.8m NGH), as increased workforce already in place
- ▶ **There is a direct link between planned care activity and financials in 23/24.** If the activity plan is not delivered within the resourcing assumed and agreed, financial performance will be worse
- ▶ **No new investments in 2023/24**, in plan or in year, without increased efficiency to pay for them
- ▶ **System support funding**, (£28.7m KGH and £14.8m NGH) bridging significant gap to breakeven. Would otherwise mean (and does mean in underlying terms) a **sizable deficit at NGH** and a **very significant deficit at KGH**
- ▶ No separate change to sickness or flow / pressures costs other than those included in efficiencies
- ▶ **Elective Recovery (ERF)**
 - ▶ NGH no clawback as plan delivers improvement target (108%)
 - ▶ KGH £1.5m clawback assumed as plan does not deliver improvement target (102% vs 104%)

Finance Plan

Key Delivery Assumptions:

- ▶ Energy increases, per national planning assumptions. Work continues with Estates on latest estimates
- ▶ No negative revenue impact of Community Diagnostics Centre (CDC), assumed cost neutral
- ▶ No negative impact of commissioning round (e.g. CQUIN, high cost drugs / devices, elective reverting to PbR)
- ▶ Delivery of efficiency and transformation, with release of capacity and costs
- ▶ Ability to deliver activity growth within existing cost base / assumed funding
- ▶ Capital funding per system allocations methodology, broadly in line with 2022/23 plus national funding CDC (KGH), EPR (NGH), Digital (KGH and NGH)

Key Issues / Challenges:

- ▶ No System delivery or transformational change / capacity in place to enable removal of high cost A&E and bed capacity (e.g. Additional costs of Urgent Care flow at NGH and Tom Moore Ward at KGH)
- ▶ Moving to weighted elective delivery in a financially beneficial way
- ▶ Limiting investments / cost pressures to totals agreed in plan, with no contingency in plan
- ▶ Continued System challenge and understanding of increases in cost base (since 2019/20) and impact of activity volumes

Summary of key risks and issues to manage

- There is a risk that the combined set of performance activity and finance **expectations are not deliverable** within a financial year
- Increased non-elective **demand** impact on maintaining elective capacity and therefore impacting deliverability of ERF and performance targets
- Increased **referral rates** impacting on growing PTL and risk to delivery of **52 and 65 week waits**
- Inability to **reduce substantive workforce** costs
- **Workforce availability** continues to be a significant risk with staff numbers being impacted by high unavailability, the operational requirements for escalation areas and vacancies in key areas/roles and hard to recruit specialities such as ED, HCAs and ODPs
- Unknown ongoing **Industrial Action**, on operational delivery, workforce availability etc
- **Performance modelling and ongoing tracking** and reporting of plan is not currently available to take informed decisions in timely manner to influence mitigations to the plan
- **Ongoing monitoring of operational productivity** to support cross cutting schemes and transformation programme delivery
- Community related investments and **system pathway redesign** to deliver changes in acute capacity and realise bed occupancy at 92%
- **Efficiency delivery**, to create assumed cost improvement plans of efficiency and scale required within corporate and clinical divisions
- Transforming operational **productivity** to create capacity / activity and performance required

Next Steps

- ▶ The proposals set a plan for 23/24 but do not address the wider sustainability and productivity challenges upon us, in particular:
 - The underlying financial deficit to manage (c5% additional cost reduction / efficiency required in addition to that included in 2023/24 plan, to Reach breakeven without system support monies)
 - The productivity and efficiency challenge across the system
 - The scale and pace for integration and system transformation required to deliver benefits in urgent and emergency care flow
- ▶ These remain a priority to be addressed as we move to the implementation and delivery of the final plan.

Cover sheet

Meeting	Board of Directors (Part I) Meeting in Public
Date	9 June 2023
Agenda item	7

Title	Board Assurance Framework (BAF)
Presenter	Richard Apps, Director of Corporate Governance
Author	Debbie Spowart, Head of Risk (KGH) Phil Cole, Risk and Policy Manager (NGH)

This paper is for			
<input checked="" type="checkbox"/> Approval	<input type="checkbox"/> Discussion	<input type="checkbox"/> Note	<input checked="" type="checkbox"/> Assurance
To formally receive and discuss a report and approve its recommendations OR a particular course of action	To discuss, in depth, a report noting its implications for the Board or Trust without formally approving it	For the intelligence of the Board without the in-depth discussion as above	To reassure the Board that controls and assurances are in place

Group priority				
<input checked="" type="checkbox"/> Patient	<input checked="" type="checkbox"/> Quality	<input checked="" type="checkbox"/> Systems & Partnerships	<input checked="" type="checkbox"/> Sustainability	<input checked="" type="checkbox"/> People
Excellent patient experience shaped by the patient voice	Outstanding quality healthcare underpinned by continuous, patient centred improvement and innovation	Seamless, timely pathways for all people's health needs, together with our partners	A resilient and creative university teaching hospital group, embracing every opportunity to improve care	An inclusive place to work where people are empowered to be the difference

Reason for consideration	Previous consideration
To provide assurance of relationship between the Group Board Assurance Framework (BAF) and the Corporate significant risks at both Kettering General and Northampton General Hospitals.	Previously considered by committees in common during May 2023 and Trust Board in February 2023.

Report
<p>This report provides oversight of the Group Board Assurance Framework at 26th May 2023 and the relationship between the strategic risks on the Group BAF and the significant risks contained on the Corporate Risk Registers at both Kettering General (KGH) and Northampton General Hospitals (NGH) that potentially impact on the BAFs strategic risks.</p> <p>Each committee received the Group BAF in May 2023 alongside the associated significant corporate risks.</p>

They were asked to review the following revised risks following a deep dive and provide an overall assurance opinion:

UHN01 – Challenges in our ability to attract, recruit, develop and retain colleagues means we are unable to deploy the right people to the right role at the right time resulting in potential detriment to patient care – People

Committees in Common: The Committee undertook a deep-dive review during the April People Committee Strategy Day providing feedback to the executive risk owner, resulting in a new overall risk title and revised scheme of controls, assurances and further planned action. The revised BAF has been circulated outside of committee to members with positive feedback and underwent a further deep-dive review by the committee on 5 June. The Committee gave **Reasonable Assurance** on the updated risk, noting the revised risk gives greater clarity and articulates the risk and control framework well.

UHN04 - Failure of the Integrated Care Board (ICB) to deliver transformed care – Finance and Performance Committees in Common and Clinical Quality

Safety and Performance Committees in Common: The committees both received this risk, which has finance and quality implications, and confirmed **Reasonable Assurance**.

UHN05 - Risk of failing estate buildings and infrastructure due to age and suitability - Finance and Performance Committees in Common: Limited

Assurance was given due to the aging site and infrastructure and uncertainty over future capital allocations and national funding streams.

UHN07 – Failure to deliver the Group Digital Strategy may result in our staff and patients not having the tools or information they need to deliver, and receive safe, high quality patient care – Digital Hospital Committees in

Common: The Committee approved the reworked version of the BAF, and were assured that it more accurately captured the risk the committee was managing and took **Reasonable Assurance** from the revised BAF risk noting some action owners still to be finalised.

Appendix A details the group BAF and Appendix B details the alignment of significant corporate risks at both KGH and NGH at 6 June 2023.

Appendices

Appendix A – UHN Group BAF at 6 June 2023

Appendix B – Alignment of significant corporate risks at both KGH and NGH

Risk and assurance

As set out in the report.

Financial Impact

Financial risks are detailed within the BAF

Legal implications/regulatory requirements

Duty to identify and manage risks / CQC Well-Led

Equality Impact Assessment

Is there potential for, or evidence that, the proposed decision/ policy will not promote equality of opportunity for all or promote good relations between different groups? (N)

Is there potential for or evidence that the proposed decision/policy will affect different population groups differently (including possibly discriminating against certain groups)? (N)

Group Board Assurance Framework

6 June 2023

Ref	Group Priority	Scrutinising Committee	Risk Title	Initial Risk Level (July 2022)	Current Risk Level (May 2023)	Movement (from Initial)	Residual Risk Level	Risk Appetite	Summary Updates
UHN01	People	Group People Committee	Challenges in our ability to attract, recruit, develop and retain colleagues means we are unable to deploy the right people to the right role at the right time resulting in potential detriment to patient care..	16	16	→	12	Moderate	Deep dive completed and revised risk with amendments to control and assurances to be agreed at People Committee
UHN02	Quality	Quality & Safety Committee (KGH) Quality Governance Committee (NGH)	Failure to deliver the group Clinical Strategy may result in fragmented and inefficient service delivery, fragile service provision, and sub-optimal outcomes of care alongside negatively impacting staff retention, recruitment, and morale.	12	12	→	8	Low	No changes made
UHN03	Patient	Quality & Safety Committee (KGH) Quality Governance Committee (NGH)	Failure to deliver the group Nursing, Midwifery and Allied Health Professionals (NMAHP) Strategy may result in inequity of clinical voice, failure to become a truly clinically led organisation and centre of excellence for patient care	12	12	→	8	Low	Changes made to control 1 assurances – further addition made in relation to workstreams
UHN04	Systems and Partnership	Quality & Safety Committee (KGH) Quality Governance Committee (NGH) Performance, Finance & Resources (KGH) Finance & Performance (NGH)	Failure of the Integrated Care Board (ICB) to deliver transformed care will result in an impact on the quality of service provided across the Group	16	16	→	12	High	Risk owner updated to Director of Strategy and Estates
UHN05	Sustainability	Group Strategic Development Committee Performance, Finance & Resources (KGH) Finance & Performance (NGH)	Risk of failing estate buildings and infrastructure due to age and suitability and, failure to deliver Group strategic estates plans, may prevent delivery of key Group strategies, eg Clinical Strategy	12	12	→	6	High	Risk description revised
UHN06	Quality	Quality & Safety Committee (KGH) Quality Governance Committee (NGH)	Failure to deliver the long-term Group Academic Strategy may result in University Hospitals Northamptonshire's (UHN) ability to attract high calibre staff and research and education ambitions. Recognition of impact on financial income to the Group	12	12	→	4	Low	No changes made
UHN07	Sustainability	Group Digital Hospital Committee	Failure to deliver the Group Digital Strategy may result in our staff and patients not having the tools or information they need to deliver, and receive safe, high quality patient care.	20	20	→	15	High	Risk description revised and additional further planned actions identified
UHN08	Sustainability	Performance Finance & Resources Committee (KGH) Finance and Performance Committee (NGH)	Failure to deliver a Group Medium Term Financial Plan results in an inability to deliver Trust, Group and system objectives.	16	16	→	16	High	No changes made

Principal Risk No:		UHN01	Risk Title:	Challenges in our ability to attract, recruit, develop and retain colleagues means we are unable to deploy the right people to the right role at the right time resulting in potential detriment to patient care.												
			Materialising in [any/several] of the following circumstances:	(1) Sustained declines in Staff and People Pulse Survey key indicators in respect of response rates, discrimination and advocacy (2) Key metrics relating to sickness absence, turnover, vacancies and statutory and mandatory training/appraisal completions in special cause variation for at least three consecutive reporting periods (3)Key metrics relating to safe staffing in special cause variation for at least three consecutive periods (4)Customer experience performance/concerns referred from quality committees (5) Cumulative qualitative and anecdotal evidence identified in the course of business-as-usual activities e.g. Non-Executive site visits/presentations to Committee/regular communication mechanisms. 1.	The Academic Strategy is managed through the Academic Strategy Programme Board which reports into the Joint Quality Committee and Collaboration Programme Committee (CPC)		The Academic Strategy and the supporting Business Case has been approved by both Hospitals (Internal / External) Quarterly Update / deep dive at CPC and non-executives on delivery of academic strategy –							Due to trust pressures inconsistent meetings of the subcommittees (Group)						Chief Medical Advisor		31/12/23	
2.	Themes relating to academic strategy delivery. • Medical Education (ME)		HEE new schedule regards student income for 22/23. Finance confirming numbers and income allocated to the Academic Strategy. Agreed to develop a MOU with Uni of Leics School of Healthcare to cover, education appointments, placements for expanding provision, and research opportunities. Assistant Professor post in Medical Education starts with Uni of Leicester on 1st November				HEE reduction of 10% on per student fee which impacts on the income for the Academic Strategy.			Estate- expansion to fill the capacity of on site accommodation. External accommodation may be required to support expanding numbers from Uni of Leics. Uni of Leics have lost United Lincoln Hospitals as a placement provider due to the establishment of the Lincoln Medical School. Potential for more Uni of Leics students. Uni of Leics are aware of accommodation limitations and impact of increased placements by academic year 2023/2024.			Agreement of MOU with School of Healthcare			Directors of Medical Education Directors of Nursing		31/03/2023 31/01/2023	
	• Estates (E)		Academic Programme Board oversight (Internal)				(E) Accommodation – teaching space. With rising student numbers, there are no current firm plans to manage the demands on the estate (Group)						The Estates Subgroup to develop short term and long-term potential solutions across the group. Outcome of Integrated Business Case submitted for a short-term solution at NGH.			Operational Director of Estates		31/12/2022	
			Academic Programme Board oversight (Internal)				(E) Accommodation- Student living space. With rising student numbers there is pressure on the current estate and at NGH poor feedback from the Medical Students staying onsite at CRIPPS (NGH)						The Estates Subgroup to develop short term and long term potential solutions across the group to manage growing cohorts. A refurbishment plan to be completed at CRIPPS to address student feedback.			Operational Director of Estates		31/12/2022	

Current Controls (Likelihood/Impact)		Plan Delivery Assurance/ Group IGRs (Internal / External)	Control Gaps	Assurance Gaps	Further planned actions to mitigate gaps	Action Owner	Due date
	• Research (R)	(R) Successful in Clinical Research Facility Bid for Bio Medical Research Centre (internal / external)	(R) Research council covers 80% of costs FEC (full economic costing) whereas Commercial / Pharmaceutical Trials are set or fixed costings & financially more beneficial		(R) To manage a Business Case, a Finance Group is required to track business benefits, income and expenditure.	Director of Finance (KGH / NGH)	31.12.2022
			(R, E) Accommodation - expanding Research and Medical Education team space. With expanding teams to manage an increased portfolio, there is pressure on office space for delivery teams. This is outstanding for KGH.	The Estates Subgroup to develop short term and long term potential solutions across the group to manage growing cohorts.		Operational Director of Estates	31.12.2022
	• Finance (F)	(F) Monthly finance reporting to Academic Strategy Programme Board and quarterly to Joint Quality Committee – now happening	(F) No strategic lead for academic strategy finance (F) Financial resource for submission of research grants (joint research office)		Finance to discuss support	Director of Finance (KGH / NGH)	31.12.2022
	• Innovation- in development (IN)	Academic Programme Board oversight (Internal). Mediplex-NHs Innovation advisor appointed to support Innovation opportunities. East Midlands Academic Health Science Network, funding Innovation Programme Manager role based at NGH to support innovation across the ICS. IP in Expert in Residence appointed across the group to provide IP advice as required.	Mediplex will review IP policies and harmonise across the group including revenue sharing agreements for inventors.			AD Research, Innovation and Education	
	• Communications	Gap regards Objective 8 of the Academic Strategy regards communications.	No Communication and engagement plan yet approved maximise the opportunities of the academic strategy (Group) Current gap with recruitment process for the Director of Communications and capacity within the Communications teams. External PR has been completed for big events- e.g NIHR Biomedical Research Centre launch in early Oct 22.	Appointment of Director of Communications. Capacity within the Communications Team to support wider communications of PR and Group Briefings.	R&I Project Officer receiving training to update the R&I intranet. NIRH East Midlands CRN (EMCRN) will support us in developing our commercial external pitch to Pharma companies to grow our commercial trials and subsequent income target. NIHR EMCRN will be creating research patient stories for UHN to use Exploring communications placement student for academic year 23/24 to give additional capacity for R&I communications across the group.	Heads of Comms (KGH / NGH)	19/12/22
	• Academic partnership with University of Leicester (UoL)	Partnership meetings with University of Leicester (UoL) and University of Northampton (UHN) held separately to deliver our joint academic activities, review progress against the Partnership plans and manage risks Internal / External) UoL have signed a Partnership Agreement that sets out the criteria for working between the Group and UoL (Internal / External). The UoL NED has been included within the KGH constitution (Internal / External). KGH NED appointment (Internal)					

Current Controls (Likelihood/Impact)		Plan Delivery Assurance/ Group IGRs (Internal / External)	Control Gaps	Assurance Gaps	Further planned actions to mitigate gaps	Action Owner	Due date
3	Governance in place to manage Academic partnerships	Academic Programme Board oversight (Internal)					
4	UHN membership of Clinical Research Facility (UoL Partnership) and Biomedical Research Centre steering groups/committees to develop partnership with UoL and UHL under the main body of National Institute for Health and Care Research	July 2021 launch of University Hospitals of Northamptonshire NHS Group.					

Principal Risk No:		UHN07	Risk Title:	Failure to deliver the Group Digital Strategy may result in our staff and patients not having the tools or information they need to deliver, and receive safe, high quality patient care.								
			Materialising in any/several of the following circumstances:	<div>- Patients are not in control of, or kept well informed of, their care so we fall behind standards and expectations of patients</div> <div>- Clinicians do not have the access to full, accurate and timely patient information when they need it, leading to a negative impact on patient care decisions - and therefore outcomes</div> <div>- Staff (clinical and non clinical) do not have the tools, (or the tools are not based on a secure and reliable supporting digital infrastructure), to perform their roles effectively, resulting in poor productivity, poorer outcomes for patients, and a block on their ability to collaborate easily and well, within UHN and also more widely.</div> <div>- Managers and clinicians do not have relevant, accurate, consistent and reliable data readily available in a useful form, to make timely informed decisions, leading to greater operational challenges for UHN, and poorer patient outcomes as result.</div>

1	Digital Transformation governance structure to monitor and support project delivery against plan		Upward reporting to Group Digital Hospital Committee from governance groups, including: Updates from programme boards (EPR; digital transformation, infrastructure boards etc) Project highlight reports on key current priority projects agreed with the committee. Group CDIO attendance at ICS digital and data board to help tie KGH. NGH and ICS ambitions together and also secure support from wider ICS colleagues where required.				Benefits reporting to showcase impact of digital transformation, and ensure lessons learnt (and then communicate this back to our colleagues) Involvement and engagement from hospitals – a wide spread understanding of what digital transformation is delivering. Clarity on digital ambitions and priorities of the ICS, and timescales of key projects they are leading on (such as NSCR). Robotic Process Automation reporting and governance on delivery to give assurance of performance.		Benefit reporting to incorporate into GDHC papers (Oct 23) Communication and engagement plan to go to GDHC (July 23) To invite newly appointed ICS Digital Director to attend GDHC at earliest opportunity (summer 2023). Work with wider ICS to determine realistic ICS priorities against ICS digital strategy Robotic Process Automation assurance to be given to GDHC at a minimum of quarterly basis with clarity on underpinning governance – including performance reporting		Head of DT&I/ GCDIO Group CCIO GCDIO GCDIO Head of RPA	Oct 23 Jul 23 Sept 23 Nov 23 Nov 23
2	Operational governance structure (meetings/committees) to review and oversee the performance of the 'business as usual' parts of the Digital Division's work (e.g. financial control & risk management, and performance of ICT areas such as security, systems performance, upgrades, hardware management, etc))		Upward reporting to Group Digital Hospital Committee from Digital Operational Meeting		Establishing/refreshing Overarching Digital Operational Meeting, and reporting needs of GDHC from this, and its underlying teams/groups is still in progress. This includes upward reporting from the data security protection group.		KPIs for Digital Division to track operational ('BAU') performance need to be clearly agreed with GDHC.		Digital Operational Meeting to be refreshed in May 23, upward reporting to GDHC to start from June 23 KPIs drafted June 23 – refine Sept 23 and agreed with GDHC in Oct 23		GCDIO GCDIO	June 23 Oct 23
3	Prioritisation governance process (including representatives from a diverse range of staff) to oversee digital transformation prioritisation.		Upward reporting to Group Digital Hospital Committee from Strategic Delivery Group (led by Group Transformation Team). Operation of key forums from Digital which feed into SDG, including the Clinical (main forum for clinical and operational input into digital transformation agenda) and Technical Design (main forum for checking ideas are technically feasible for consideration) authority groups.		Establishing underpinning prioritisation process to Strategic Delivery Group (in progress), including defining exact membership of Clinical and Technical design authority groups, and how they feed into this process.		Require continual review of priorities – will need assurance the dynamism of process will be ongoing. Effectiveness review of these two new groups once been operating for a few cycles. Method of reviewing relevance of project backlog (projects previously identified as on digital's list but not in current shortlist of active priority projects) needs to be established through clinical and technical design authority		Prioritisation governance to be established May 23 including Clinical Design Authority, upward reporting to GDHC to start June 23 Review dynamism of priority calls in 6 months' time		GCDIO/ GCCIO/ Head of DT&I GCDIO	Jan 23 Jan 23

Current Controls		Plan Delivery Assurance/ Group IGRs (Internal / External)	Control Gaps	Assurance Gaps	Further planned actions to mitigate gaps	Action Owner	Due date
4	Structured communication and engagement activities with clinical and operational leadership on the digital agenda	Upward reporting to Group Digital Hospital Committee	Overarching communication and engagement plan (in progress)	Need to include targets or assess how we will measure improvements in engagement of staff and patients with key messages, and review effectiveness of engagement channels after a period.	Communication and engagement plan to be created (July 23)	GCCIO	Jul 23
		Digital champion network (KGH)	Overarching KGH and NGH (UHN) Digital champion network and supporting digital academy with digital competency framework to give more comprehensive training and support		KGH and NGH (UHN) digital academy with supporting digital champion network to be established Mar 24	Head of Clinical Systems	Mar 24
		Admin academy (NGH); digital academy (KGH) to oversee digital training and support			Review implementation of communication and engagement plan by the end of 2023.	GCCIO	Mar 24
5	Plan to have the digital resource required to ensure capability and capacity required to deliver strategy	Reporting progress of restructure to Group Digital Hospital Committee	Complete restructure of Digital Division to support capacity and capability required to deliver (underway), and therefore current structure not yet fully aligned with needs, or future ambitions.	Resource dependency to be highlighted as critical factor at GDHC to give assurance necessary capability/ capacity is in place for key priority work, and to understand risks and specific areas of pressure.	Complete digital restructure by Aug 23	GCDIO	Aug 24
6	Supplier management process. to manage relationships with key digital suppliers and key contracts, to ensure confidence in their ability to deliver and manage any risks.	Contractual meetings between Digital SLT and account managers of suppliers	Overseeing relationship management	Incorporate into reporting to GDHC around supplier support	GDHC report refresh to show supplier dependency (May 23)	GCDIO	May 23
			Involvement of Medical Director (KGH initially) for EPR supplier management now, and for KGH as procurement process develops during 2023. Limited visibility of this process at GDHC at present.		GCDIO and KGH MD to set up regular Exec meetings with KGH EPR supplier (Aug 23)	GCDIO	Aug 23
7	Strategy to seek out nationally funded programmes of work (e.g. EPR) to ensure necessary funding to deliver as much of our strategic ambitions as possible, as soon as possible. .		Need to ensure newly appointed GDIO is embedded in national networks and so is abreast of any potential opportunities in this area	Opportunity/ horizon scanning – implementation of Digital Commercial Manager to support this activity	Digital Operational Meeting to be founded in May 23	GCDIO	May 23
					Complete restructure and then recruit to vacant posts (Oct 23)	GCDIO	Oct 23
					GCDIO to work closely with ICS Digital Director to keep abreast of potential funding opportunities	GCDIO	Oct 23
8	Strategy to enhance our Health Intelligence Function's ability to service the information needs of UHN.		Findings of internal review (carried out in April/ May2023 by former KGH Digital Director) to be considered by Digital team and GDHC to allow better articulation of the current control gaps.	Limited visibility and assurance of performance of Health Intelligence team at GDHC at present.	GDHC to consider action plan required to support Health Intelligence function – GDHC report needed in May 23 and July 23	GCDIO	May 23 July 23
					Ensure priorities of Health Intelligence function are reflected in the GDHC reporting	GCDIO	Jul 23

Principal Risk No:	UHN08	Risk Title:	Failure to deliver a Group Medium Term Financial Plan results in an inability to deliver Trust, Group and system objectives, specifically: (a) Failure to deliver Revenue Plans results in deficits and an inability to finance investments (b) Failure to deliver efficiency and productivity changes result in revenue deficits (c) Failure to generate sufficient cash to finance required capital investment (d) Non-delivery of transformation and efficiency targets results in non-delivery of external funds e.g. Elective Recovery, discretionary capital. <i>Consolidates/replaces the following:</i> (KGH011) Delivery of control total and meeting the trajectory to live within our financial means.) (NGH116 Risk that the Trust fails to fully deliver the financial efficiency programme) (NGH115 Risk that the Trust fails to have financial control measures in place to deliver its 22/23 financial plan) (NGH117 Risk that the Trust fails to manage its capital programme within the capital resource limit or fails to secure sufficient funding for infrastructure and equipment improvements)				
		Materialising in any/several of the following circumstances:	- Financial performance (income and expenditure) is materially worse than Plan - Insufficient cash to continue day to day operations; - Materially lower transformation, efficiency and productivity performance compared to Plan - Qualified external audit opinions - Significant control weaknesses identified by Internal Audit - Failure to deliver capital plan elements causes detriment to programme delivery outside agreed tolerances.

BAF Link	Risk ID (BAF/CRR)
UHN001 (Group People Plan)	KCRR017 - Organisational challenge in relation to staffing with the potential to impact negatively on patient experience and outcomes (Current risk score 16)
	NGH 151 - There is a risk that insufficient numbers and skill of ED nursing workforce may not meet the needs of patients causing harm (Current risk score 25) NGH 29 - Out of hours staffing (ST3 and above) is inadequate for the level of activity (Current risk score 20) NGH 32 - Fuel prices affecting staff who provide clinical community care, may lead to vacancies and cancelled patient care (Current risk score 16) NGH 268 - Risk of insufficient staff within Domestic Services to manage its statutory obligations and reactive works (Current risk score 16) NGH 468 - Lack of ODP's / anaesthetic nurses throughout directorate due to national recruitment shortage (Current risk score 20) NGH 332 - Staffing levels demonstrate there are insufficient registered midwives within maternity services (Current risk score 16) NGH 205 - Crisis Community Paediatric Staffing (Current risk score 20) NGH 536- Struggling to safely staff/sustain Respiratory on-call Physio service (Current risk score 20) NGH 366 - Specialist Palliative Care Medical Staffing inadequate to provide effective service. NGH 483 - Inability to provide 24-hour outreach service
UNH002 (Clinical Strategy)	KCRR011 - Performance and sustained patient flow through the Emergency Department (Current risk score 20) KCRR060 – Impact on patient safety due to industrial action by EMAS (Current risk score 20) KCRR052 - Potential loss of JAG accreditation due to not having ability to work towards NED 2 compliancy (Current risk score 16) KCRR043 - Cross divisional risks associated with completion of patient level risk assessments for all patients that are clearly documented in patient notes (Current risk score 16) KCRR049 - If Radiology imaging is not completed within 6 weeks of referral the Diagnostic target will be breached (Current risk score 16) KCRR063 - A lack of formal outpatient parenteral antimicrobial therapy (OPAT) service is restricting our ability to provide high-quality care for people with complex infections in their usual residence (Current risk score 16) KCRR061 –Significant risk that the Trust has the potential to lose its Paediatric services, if it fails to make the improvements required and give the assurances needed to keep children safe (Current risk score 15) KCRR048 - Lack of escalation of deteriorating patients can lead to increased patient harms and poor patient experience (Current risk score 15) KCRR065 – Safe delivery of T&O Spinal Surgery (Current Risk score 15) KCRR042 - Cross divisional risks associated with compliance with MCA / DoLs relating to knowledge gap at service level (Current risk score 16) KCRR035 - Backlog of investigations of incidents and closure (Current risk score 15)
	NGH 424 - Risk of reduced patient safety when demand exceeds capacity (Current risk score 25) NGH 20 - There is a risk to patient care and safety due to boarding of patients in non-bed spaces (Current risk score 20) NGH 88 - Failure to continuously meet national cancer targets with the addition of covid19 causing further restriction (Current risk score 16) NGH 205 - Crisis Community Paediatric Staffing (Current risk score 20) NGH 156 - There is a risk that patient care may not be delivered according to guidance due to delayed ambulance transfers from ED (Current risk score 20) NGH 39 - Unable to provide an end of life or palliative care service in children and young people at NGH (Current risk score 20) NGH 157 - There is a risk of delays in follow up care and no communication to GPs due to lack of EDN completion in SDEC by specialty teams (Current risk score 20) NGH 195 - Inability to meet Idiopathic Pulmonary Fibrosis NICE Guidelines (Current risk score 20) NGH 74 - Risk of harm to patients from physical and psychological deconditioning (Current risk score 20) NGH 176 - Risk of non-compliance with outcome of National Audits and Clinical Senate Recommendations for heart failure service (Current risk score 16)
UHN003 (Group Nursing, Midwifery and Allied health Professionals strategy)	
	NGH 291 - Risk of an adverse event due to delays in the Induction of Labour process (Current risk score 20) NGH 260 - There is a risk due to increased volume of investigations and a number of historical incidents being opened (Current risk score 20) NGH 291 - Risk of an adverse event due to delays in the Induction of Labour process (Current risk score 20) NGH 206 - Unable to provide an end of life or palliative care service in children and young people at NGH (Current risk score 20) NGH 39 – Risk of lack of adherence to good safeguarding practices in the trust (Current risk score 16) NGH 263 – Maternity Safeguarding (Current risk score 20)
UHN004 (Integrated Care Board)	KCRR011 - Continued extreme pressure on capacity and reported incidents of low nursing levels and delayed discharges creates the risk of creates the risk of poor quality of care and patient safety, combined with staff well-being.
	NGH 160 - 3032 - Escalation beds on Nye Bevan impacting patient safety and flow. (Score 20) NGH 41 - 2700 There is a risk that patients are not being discharged robustly and safely (score 16) NGH 424 - Risk of reduced patient safety when demand exceeds capacity (Current risk score 25)

BAF Link	Risk ID (BAF/CRR)
UHN005 (Group Strategic Estates Programme)	KCRR015 - No sustainable capacity for urgent care (Current risk score 20) KCRR058 – Failure to identify an agreed and Trust approved option for delivery of Maternity Bereavement suite, , resulting in reputational damage (Current risk score 16) KCRR045 - A significant increase in headcount coupled with reduced useable office accommodation puts at risk operational and clinical efficacy and compliance with workplace occupational health and safety regulations (Current risk score 16) KCRR036 - Recognition that due to the age of the Trusts estate not all wards or services have suitable environments to be able to provide a high-quality service from. (Current risk score 16) KCRR062 – Risk to staff safety thorough lack of Entonox monitoring (Current risk score 16) KCRR059 - Risk to patient safety and quality of care due to the current layout of LNU as there is a lack of visibility of all babies and the lack of continuous supervision of these babies (Current risk score 16) KCRR030 - Loss of heating and hot water failures and interruptions to some or all areas of the trust due to age of boiler system (Current risk score 16) KCRR055 - Recognition that areas of Trust could fall into darkness due to aged lighting that is no longer available (Current risk score 15) KCRR040 - Recognition that due to the age of the some of the medical and diagnostic equipment, maintenance and replacement parts are no longer available (Current risk score 15) KCRR026 - Risk of loss of power or reduced power to site if the main high voltage incoming switchgear fails (Current risk score 15)
	NGH265 - Heating and hot water infrastructure (Current risk score 16) NGH 288 - Risk of failure of the critical ventilation systems in operating theatres (Current risk score 16) NGH192 - Risk of fire on top floor of Blocks 41 and 42 ward areas and corridors preventing full evacuation (Current risk score 20) NGH262 - Risk of asbestos related diseases from exposure to asbestos fibre NGH501 - Post Mortem Room facilities, premises and environment (Current risk score 20) NGH502 - Fridge Room capacity, facilities & premises (Current risk score 20) NGH213 – Risk of failure of medical gas pendants to main theatre 5 and 6 (Current risk score 20) NGH229 - Risk of failure of medical gas pendants to main theatre 3 and 4 (Current risk score 20) NGH250 - Risk of failure of medical gas pendants to main theatre 1 and 2 (Current risk score 20) NGH301 – Risk of failure of gas interlock system (Current risk score 15) NGH190 – Risk of failure of UCV ventilation canopies Manfield theatre 1-2 (Current risk score 20) NGH255 – Risk of failure of Barratt vacuum system (Current risk score 20) NGH253 – Risk of failure of Paediatric/Obstetric area vacuum plant system (Current risk score 20) NGH255 – Risk of failure of area L vacuum plant system (Current risk score 20)
UHN006 (Group Academic Strategy)	KCRR017 - Organisational challenge in relation to staffing with the potential to impact negatively on patient experience and outcomes (Current risk score 20)
	NGH155 - There is a risk that insufficient numbers and skill of ED nursing workforce may not meet the needs of patients causing harm (Current risk score 25) NGH511 - There is a risk there are insufficient medical Physics staff to support the Trust compliance with Ionising Radiation Regulations (Current risk score 16)
UHN007 (Digital Strategy)	KCRR054 - Lack of quality assurance on destruction of the paper originals of scanned records in line with the EPR project (Current risk score 16) KCRR038 - Loss of the current Intranet service and experience a loss of data contained therein. (Current risk score 16) KCRR009 - Threat to IT systems from Cyber security and malware attacks (Current risk score 16)
	NGH 114 - TECH - threat to our IT systems and / or infrastructure from a cyber or malware attack resulting in a loss of service or data (Current risk score 15) NGH 16 - Increased incidents relating to a ‘pause’ in Acting on Results Patient Safety Work Stream (Current risk score 15) NGH 92 - TECH: The ability to access clinical systems by Midwives in the community is not reliable due to inadequate connectivity (Current risk score 20) NGH 93 - Clin Apps - No Electronic Prescribing and Medicine Administration System (EPMA) (Current risk score 16) NGH 97 - CLIN / DSP: Inability to record allergies on Trust clinical systems (Current risk score 15)
UHN008 (Group Medium Term Financial Plan)	KCRR056 - Failure in having financial control measures to deliver the 22-23 Financial Plan and return to medium term financial balance (Current risk score 20)
	NGH 35 - Failure in having financial control measures to deliver the 22-23 Financial Plan and return to medium term financial balance (Current risk score 20) NGH 132 - There is a risk that the division will be overspent due to the high demand for 1:1 care (Current risk score 16) NGH 40 - There is a risk to the consistent supply and availability of clinical consumables from NHSSC (Current risk score 15) NGH 38 – The trust may not have sufficient capital for capital requirements or may not be able to maximise its capital spend (Current risk score 15) NGH239 - Risk of Failure of Procurement BI tool (Current risk score 15)

Cover sheet

Meeting	Board of Directors (Part I) Meeting in Public
Date	9 June 2023
Agenda item	8

Title	Group Digital Hospital Committee: Terms of Reference
Presenter	Natasha Chare, Group Chief Digital Information Officer
Author	Richard May, Group Company Secretary

This paper is for			
<input type="checkbox"/> Approval	<input type="checkbox"/> Discussion	<input type="checkbox"/> Note	<input type="checkbox"/> Assurance
To formally receive and discuss a report and approve its recommendations OR a particular course of action	To discuss, in depth, a report noting its implications for the Board or Trust without formally approving it	For the intelligence of the Board without the in-depth discussion as above	To reassure the Board that controls and assurances are in place

Group priority				
<input type="checkbox"/> Patient	<input type="checkbox"/> Quality	<input type="checkbox"/> Systems & Partnerships	<input type="checkbox"/> Sustainability	<input type="checkbox"/> People
Excellent patient experience shaped by the patient voice	Outstanding quality healthcare underpinned by continuous, patient centred improvement and innovation	Seamless, timely pathways for all people's health needs, together with our partners	A resilient and creative university teaching hospital group, embracing every opportunity to improve care	An inclusive place to work where people are empowered to be the difference

Reason for consideration	Previous consideration
The Board of Directors is required to approve the Terms of Reference for its Committees.	Group Digital Hospital Committee, April – May 2023

Executive Summary
The Board of Directors is requested APPROVE revised Terms of Reference for the Group Digital Hospital Committee, following review and recommendation by the Committee. The Terms of Reference require the Trusts to appoint a Non-Executive Director as Chair of the Committee, one of whom will convene meetings by agreement. This change enables consistency with arrangements for other Committees in Common within the Group Model. Alice Cooper (Non-Executive

Director, Kettering General Hospital) currently chairs the committee on behalf of both Trusts, under authority delegated by both Trusts' Boards.

Other changes to the document are designed to ensure appropriate operational and clinical attendance at meetings and to reflect a revised governance structure overseeing delivery of the Group's digital transformation.

Subject to approval of the revised Terms of Reference, the Board is further requested to **APPROVE** the appointment of a Non-Executive Director as Co-Chair of the Committee. Elena Lokteva and Anette Whitehouse are the current Non-Executive NGH Members of the Committee.

Appendices

Revised Terms of Reference

Risk and assurance

No direct implications for specific risks on the Group Board Assurance Framework.

Financial Impact

None.

Legal implications/regulatory requirements

None.

Equality Impact Assessment

Neutral

**GROUP DIGITAL HOSPITAL COMMITTEE
TERMS OF REFERENCE**

1. PURPOSE

- 1.1. The Digital Hospital Committee ('GDHC') will oversee strategic aspects of the NGH and KGH ('UHN Group') digital, technology and information agenda.

2. DUTIES

- 2.1.1. Steering the creation and development of the Group Digital Strategy (to align with the Group's overall strategy), and driving the overall digital ambition for the Group, with particular regard to:
- Enabling the delivery of safe, high quality patient care and improving patient experience including facilitating patients to be more in control of their care; and
 - Providing clinicians and wider colleagues with the right digital tools to work safely and efficiently, within in, and when moving across, both trusts.
- 2.1.2. Overseeing the development and delivery of both the hospital and Group level digital transformation roadmaps, in line with the ambitions of the Group Digital Strategy
- 2.1.3. Overseeing the delivery of the digital component of agreed KGH and NGH priorities and in line with the Dedicated to Excellence strategy.
- 2.1.4. Overseeing the engagement between the digital teams and digital transformation projects and the clinical and operational teams, to ensure all work is appropriately prioritised, clinically/operationally-led and delivery is supported by the relevant teams.
- 2.1.5. Overseeing the operational performance of the Digital Division
- 2.1.6. Overseeing the financial performance of the Digital Division
- 2.1.7. Overseeing the Group's digital risk exposure and seeking assurance that the appropriate risk management processes are in place.
- 2.1.8. Seeking assurance on the delivery of major Group digital transformation programmes, monitoring progress and supporting the alignment and assignment of resources in order to facilitate successful delivery. This will include:
- 2.1.8.1. Scuritising implementation timeframes
 - 2.1.8.2. Acting as point of escalation for risks/ issues and supporting mitigations
 - 2.1.8.3. Monitoring benefits
 - 2.1.8.4. Gathering lessons learnt for application to future projects
- 2.1.9. Overseeing the direction of digitally linked innovation activities, such as (but not limited to) centres of excellence within the Group, on behalf of the Trust Boards.
- 2.1.10. Promoting the application of the culture, processes, business models and technologies of the internet era to respond to people's raised expectations [Tom Loosemore's definition of Digital].

3. AUTHORITY

- 3.1. The Group Digital Hospital Committee (“the Committee”) is a Committee in Common and has delegated authority from each Trust Board, as set out each Trust’s Scheme of Delegation. The Committee has the responsibility for ensuring the delivery of the overall Group Digital Roadmap and will delegate this authority to individuals or groups as appropriate.
- 3.2. The Committee is charged with providing assurance to the Trust Boards and is authorised to investigate any activity within its Terms of Reference.
- 3.3. The Committee is required to escalate items to the Trust Boards, where their direction and decision making is required.

4. MEMBERSHIP AND ATTENDANCE

Role	KGH	NGH
Co-Chairs	Non-Executive Director	Non-Executive Director
Members	Non-Executive Director (Deputy)	Non-Executive Director (Deputy)
	Group Chief Digital Information Officer (Accountable Executive)	
	Chief Operating Officer	Chief Operating Officer
	Director of Nursing	Director of Nursing
	Medical Director	Medical Director
	Director of Transformation and Quality improvement	
	Director of Governance	
Attendees	Digital SLT determined by Chair/ Accountable Executive as required	
	Nominated Governor representative (s)	N/a
	Patient Advocacy Representative as required	

4.1. Notes on membership and attendance:

The Committee may invite non-members to attend all or part of its meetings as it considers necessary and appropriate. The Trusts’ Chairs, Non-Executive Directors or other Executive Directors may be invited to attend any meeting of the Committee, particularly when it is discussing areas of the Trust’s operation that are the responsibility of that director.

Two Non-Executive Co-Chairs will be appointed (one from each Trust Board) , one of whom shall convene each meeting, by agreement.

The role of the Non-Executive Directors on this Committee is to:

- Act as the Convenor of the committee (for one nominated Non-Executive Director).
- Provide independent scrutiny and advice and to constructively challenge, influence and help on the digital strategy, its vision and roadmap, delivery performance and resources.
- Provide assurance that digital-related risks to the Trusts and their patients, staff, carers and the public are managed and mitigated effectively.

5. MEETINGS AND QUORUM

- 5.1. Meetings of the Committee shall be deemed quorate when there is a minimum of five members present (one to be the Chair or Deputy Chair), comprising one Non-Executive and one Executive Director from each Trust, plus one Group Director (including deputies in each case). Inquorate meetings may proceed, but may not take decisions.
- 5.2. Members should nominate deputies to attend in their absence – for Non-Executive Directors, if they are absent they should ensure there is still Non-Executive Director representation from their hospital.
- 5.3. Meetings of the Committee will take place every month but this will be reviewed on an ongoing basis with the view that this may be reduced to every other month. Scheduled to support the business cycle of the Trust and the effectiveness of the Trust Board.

6. SUPPORT ARRANGEMENTS

- 6.1. The Digital Hospital Committee will be supported administratively by Board Secretary representatives from either Trust whose duties in this respect will include:-
 - 6.1.1. Agreement of the agenda with the Chair.
 - 6.1.2. Collation of papers.
 - 6.1.3. Electronic distribution of papers no later than one week in advance of the meeting, with exceptional data to be added at least three days in advance of the meeting.
 - 6.1.4. Making papers available to other members of the Trust Board for information.
 - 6.1.5. Accurate minute taking and keeping a record of matters arising and issues to be carried forward.

7. DECLARATION OF INTERESTS

- 7.1. All members must declare any actual or potential conflicts of interest relevant to the work of the Committee, which shall be recorded in the Minutes accordingly.
- 7.2. Members should exclude themselves from any part of a meeting in which they have a material conflict of interest. The Chair (or Deputy Chair, when acting as Chair of the meeting) will decide whether a declared interest represents a material conflict of interest.

8. STANDING AGENDA ITEMS

1	Welcome & apologies
2	Declarations of interest
3	Minutes of the previous meeting
4	Action log review
5	Digital transformation overview – roadmap and summary view
6	Spotlight projects
7	Themed updates
8	Escalations/ updates from Clinical Design Authority (prioritisation focus)
9	Escalations/ updates from Operational Group
10	BAF/ risk review
11	Items of escalation or update to Board and agreement on assurance level

9. REPORTING

Outputs

9.1. To Board:

9.1.1. The Committee is directly accountable to the Trust Board. The Chairs of the Committee shall prepare a summary report to the Boards detailing:

9.1.1.1. Decisions taken.

9.1.1.2. Items that require Trust Boards' assurance.

9.1.1.3. Items that need to be escalated to the Boards for direction or decision making.

9.2. Targeted and ad hoc communication materials to other groups, as appropriate and agreed in GDHC. This could focused on progress, success stories and next steps, for example:

9.2.1. Clinical groups

9.2.2. Digital Data and Transformation Group of the ICS

9.2.3. Patient groups

9.2.4. Management team meetings for each hospital

9.2.5. Other Board Members (incl. NEDS and Executive members)

Inputs

9.3. Inputs from the Digital Operational Meeting (including upward reporting from Data Security Protection Group)

9.4. Inputs from the Clinical Design Authority

9.5. Inputs from the Trust Operational, Divisional and Management Groups as required

9.6. Inputs from the Clinical Groups as required

9.7. Inputs from Patient Advocacy Groups on opportunities for improvement and feedback on existing digital solutions.

9.8. Inputs from Cyber Security and Digital Risk reviews and internal audits.

10. PROCESS FOR MONITORING EFFECTIVENESS OF THE COMMITTEE

10.1. The Chair of the Committee will seek feedback on the effectiveness of the Committee meetings at frequent intervals, as deemed necessary by the Chair.

10.2. Members should attend regularly and should not be absent for more than two consecutive meetings.

10.3. The Committee Terms of Reference are to be reviewed at least annually.

Approved: KGH and NGH Boards of Directors, 8-9 June 2023

Next Review: May 2024
