

Physiotherapy

The Physiotherapy team is a large and dynamic team of Physiotherapists and Rehabilitation Assistants. We work alongside our patients to help them achieve their goals and empower them through their stroke recovery.

Treatment techniques:

- ✓ Tailored exercise prescription
- ✓ Electrical stimulation
- ✓ Treadmill training
- ✓ Mirror box therapy
- ✓ Vestibular training
- ✓ Taping

We work closely alongside other members of the multidisciplinary team as well as friends, family and carers. We strive to achieve the best possible service and provide a standard of care to be proud of.

Electrical Stimulation - Finger & Wrist Extensors

Mirror Box Therapy
